

CHORLEY LIAISON

WEDNESDAY, 18TH OCTOBER 2017, 6.30 PM
COUNCIL CHAMBER, TOWN HALL, CHORLEY

I am now able to enclose, for consideration at the above meeting of the Chorley Liaison, the following reports that were unavailable when the agenda was published.

Agenda No	Item	
1	MINUTES OF MEETING WEDNESDAY, 19 JULY 2017 OF CHORLEY LIAISON	(Pages 29 - 30)
	A letter has been received from CC Keith Iddon (Cabinet Member for Highways and Transport).	
3	ITEM FROM THE WORK PROGRAMME: FEEDBACK ON THE IRONMAN EVENT	(Pages 31 - 32)
	At the last meeting it was agreed that feedback on the event be requested from all of the Town and Parish Councils and that a collective response be agreed at this meeting to be sent to Ironman.	
	Feedback received in advance of the meeting is enclosed.	

GARY HALL
CHIEF EXECUTIVE

Electronic agendas sent to Members of the Chorley Liaison

Dear County Councillor Snape

I refer to your email of 28 July. Please accept my apologies for the delay in providing this response. Please see below responses for the issues raised:

- 1) **Item requested by Heath Charnock Parish Council** - The points raised in regards to the closure of Babylon Lane to facilitate the Ironman event will be raised with the organiser when County Council officers meet with them to discuss the 2018 event.
- 2) **Item requested by Adlington Town Council** - Parking Services will shortly be visiting Adlington along with other small towns around Chorley to carry out enforcement action. Times and days are not released as this may prejudice the enforcement, however, our contractors will be visiting the outlying areas of Chorley in the very near future. It should be noted that all areas require enforcement at school times, however, given the amount of schools it is not always possible to have a presence at those times.
- 3) **Item requested by Adlington Town Council** – It is the County Councils responsibility to maintain a safe highway and all reports are inspected and the appropriate action is taken. All reported defects are attended to within our service response timeframe of 20 working days, anything that is an emergency which will present a danger to highway users is dealt with the same day.
- 4) **Item requested by Croston Parish Council** - Current records do not reveal a HGV related road safety issue within the villages of Croston or Bretherton. There have been no HGV related collision incidents recorded within the past 5 years and previous traffic counts undertaken in 2014 do not show that HGV traffic makes up a high percentage of vehicles using the village (5 to 7%).

Continued...

Croston and Bretherton are villages situated on A/B roads which form primary routes between local settlements as defined below:

- **A roads** – major roads intended to provide large-scale transport links within or between areas.
- **B roads** – roads intended to connect different areas, and to feed traffic between A roads and smaller roads on the network.

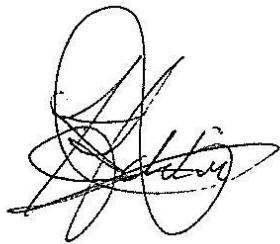

It is common throughout the local and wider network for such link routes to pass through populated areas such as Towns and Villages and these areas feature reduced speed limits to reflect the change in environment. Bretherton currently features a 30mph speed limit to reflect its built up nature whilst Croston benefits from a lower 20mph limit to reflect its particular carriageway characteristics. Permitted parking within the village further reduces speed by introducing the necessity for vehicles to give way to opposing traffic flows.

The route through both villages currently does not feature carriageway structural limitations at any points which would support the introduction of a weight restriction to disallow access to particular vehicle categories.

The absence of HGV related incidents within these areas indicates that no identified road safety concerns currently exist and that the roads are currently working satisfactorily with no concerns regarding traffic flows and categories which would necessitate the installation of further highway measures.

- 5) In April 2017 new procedures were introduced for the progression of Traffic Regulation Orders (TRO) to achieve efficiencies in the consultation and advertisement of regular orders which are not a direct result of a defined and evidenced road safety concern. This involves producing a monthly order for changes across the county. The Hoghton Road speed limit revision was submitted as part of a speed limit package during July 2017 and included in the TRO package for consultation during September.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Keith Iddon', written over a circular scribble.

County Councillor Keith Iddon
Cabinet Member for Highways and Transport

Subject: Re: Chorley Liaison - feedback on Ironman event

Hi Ruth

Brindle Parish Council has the following comments on the Iron Man event. The Parish Council reiterates its previous comment that we feel the route should be changed to go down Holt Lane rather than Top oth Lane. That said with regard to the event itself following comment was made.

It was it was very efficient. It kept within time limits specified. It was also fun for watchers! Cyclists behaved well.
