# **ALTERNATIVE BUDGET 2011/12**

### **PURPOSE OF REPORT**

1. The purpose of the report is to propose an alternative budget for consideration by the Council as suggested by the Labour Group.

#### **RECOMMENDATION(S)**

- 2. That the Council adopt the alternative budget option as set out in this report and approve the alternative and Council Tax set out in the resolutions at Appendix A, consisting of:
  - Further savings from the Councils management and back office functions.
  - More targeted investment in filling the vacant shop space in the town centre.
  - A more flexible pricing and charging policy on car parking to promote town centre usage.
  - Extra and significant investment in front line spending based on the principle of its 'your money in your streets'.
  - Reduction in Members allowances.
  - Investment to fund economic regeneration.

### **EXECUTIVE SUMMARY OF REPORT**

- 3. The alternative budget sets out the Labour Groups suggestions for how the Council's resources could be better used to improve services to local residents. It differs from the Executives proposed budget in a number of ways, but in particular it reduces the predicted budget gap for future years and it seeks to redirect spending to front line services.
- 4. The Labour Groups proposition is designed to protect individuals and businesses from the economic downturn and is a more ambitious programme than is currently being proposed by the Executive.

### **REASONS FOR RECOMMENDATION(S)**

#### (If the recommendations are accepted)

5. To ensure the Councils budgetary targets are achieved.

### ALTERNATIVE OPTIONS CONSIDERED AND REJECTED

6. The Executives current budget proposals.

#### CORPORATE PRIORITIES

7. This report relates to the following Strategic Objectives:

#### BACKGROUND

- 8. The current administration has proposed maintaining the Council Tax at current levels but with in our view no real ambition shown, to drive out costs further and invest in things that matter to the people of Chorley. In addition the budget papers show accumulated net expenditure of over £2.9m by 2014/15.
- 9. This paper examines areas of difference and puts forwards an alternative for consideration by members of the Council.

#### COUNCIL TAX LEVELS

10. The administration proposals to retain Council Tax at there current levels are noted by the Labour Group, as is it's use of the Council Tax Grant and New Homes Bonus which are built into our alternative proposals.

#### ALTERNATIVE BUDGET

- 11. Alternative budget proposals are set out at Appendix B. The Appendix shows that clear differences exist between our own and the current administration proposals. We are aiming to rectify the mistakes in the current administration thinking by:
  - Reducing the bureaucracy of running the town hall which the Conservative say they are tough on, but where we believe more could be done.
  - Focusing on a coherent approach to encouraging trade and growth in the town centre.
  - Spending on things that matter to the people of Chorley and which in some cases have been removed from spending plans (eg alley gates)
- 12. We believe that the changes are necessary and represent a better package by:
  - Providing protection against the impact of the recession by removing the proposal to increase fees and charges.
  - Ensuring that the mayorality is protected.
  - Not using the VAT shelter money to pay off debt but to use that money for investment in the Borough in later years.
  - Invest over the long term to revitalise the towns economy and to build for the future.
- 13. Our proposal focuses on cutting out waste and ensuring more spending on front line services. In order to pay for this we propose to make:
  - Further significant savings from the Councils back office services and senior management.

- Ensure that Councillors play their part by proposing an alternative Members • Allowance Scheme.
- We still firmly believe that much more could be done to slim down the cost of running the 14. Council. The administration proposal still includes the costs of £2.5m for running the Chief Executive office and support functions.
- 15. Our proposal is to reduce these services which include:
  - Chief Executives Office
  - Legal and Democratic Services •
  - Policy and Communications
  - Shared Financial Services
  - Human Resources
  - ICT and Information Management
- 16. Reducing them by up to 25%, would generate a saving of £450k. We would achieve this through a number of ways:
  - Looking to develop further sharing of services
  - Scaling down the Communications Machine/Dept
  - Reducing senior management and other costs
- In addition we are proposing changing the Member Allowances Scheme. We note that 17. there are no proposals from the administration to make themselves and members in general contribute to the savings required. Our proposal would see the number of Executive Members reduced, Lead Member abolished and some other minor changes to allowances which would result in a saving of £13k or 5% of the member allowance budget. We are disappointed that the Executives have not already considered this. Our proposals in details are shown at Appendix C.

#### **PROPOSAL FOR INVESTMENT**

- The principles we have adopted of removing further bureaucracy and waste from the back 18. office will allow significant investment to be made in areas which the Council has agreed through its Corporate Strategy are a priority. We note the investment proposals from the administration but fear these are unambitious, not thought through and focus on only one particular area of activity leaving a whole area of importance, namely the streets and environment of Chorley untouched.
- 19. Our proposals are therefore as follows:

#### Targeted investment in filling town centre shop vacancies

20. We believe that administrations proposals do not do enough. Spending on things like shop fronts have aesthetic impact but do not deal with the fundamental issues. The administration appear to be unconcerned by the vacancy rate, yet we believe that a trend is emerging that requires significant targeted actions. For that reason the programme is to offer a sum of £100k as a contribution towards the first year of business rates for new businesses in the town centre. Presently there are 100 properties vacant in and around the town centre, for those not receiving small business rate relief of which there are 20 we would offer a 50% contribution costing £100k, based upon a 75% take up.

We believe that there are other more imaginative measures that could be introduced to invest over the longer term in the economic redevelopment of the town centre.

Introduction of a more flexible pricing and charging policy on car parking to promote town centre usage

- 21. Again the administration appear to the proud of the fact that car parking charges are low in Chorley. Yet shops remain empty and we have seen significant reduction in the income generated from this source, suggesting that visitor numbers are not increasing.
- 22. We believe that having a more flexible policy whereby either free for the first hour can be offered, or even free parking days that are targeted and promoted will increase usage and boost town centre trade.
- 23. For this reason we propose set aside a £100k to finance such a scheme.

#### Creation of a community fund to be spent on Streetscene and Community Safety Activities

- 24. Finally our proposals include the creation of a community spending fund. Again we note that whilst the administration have trumpeted the introduction of neighbourhood working, no further cash is being allocated to it and once the current funding is spent no funding will be available to communities to spend on the things that matter to them.
- 25. This fund would be allocated on the basis of need and provide much needed resources in many areas, namely:
  - Tree pruning/maintenance
  - Street cleansing/streetscene improvements
  - Activities for young people to reduce antisocial behaviour
  - Partnership working with Parish Councils

And finally Alley Gate Schemes which the current administration have removed from the Council's programmed spend.

26, The administration may feel vindicated in the fact that the latest performance reports indicate targets are being achieved, but we firmly believe more could and should be done to ensure that Council tax payers money is spent on services that make a difference.

#### Section 25 report

- 27. The following comments are more purely as a matter of fact regarding the delivery of the financial aspects of the proposals and do not form a view about policy objectives
- 28. The alternative proposals will make savings over and above that proposed by the administration and are recurrent. Many of the assumptions made are the same as included in the administrations proposals but there are significant differences in the savings and investment proposals.
- 29. The financial implications are summarised in the body of the report with the details outlined in Appendix D.
- 30. The proposals allow for a further reduction in spending and in particular staffing costs in a number of areas. In this respect the staffing saving could be achieved through further restructurings and would likely incur some non recurrent costs in the shape of redundancies. However, these are likely to be immaterial given the age profile of the staff and would likely be funded from working balances.
- 31. In respect of the other savings, in particular the proposal of members allowances, these would be subject to review by the Renumeration Panel, but much of the savings come from a reduction in the number of roles, which is not an issue for the Panel, so they could be delivered.

- 32. Clearly as the alternative proposals are made up of a set of targets rather than definite proposals, this represents a risk in terms of delivery during 2011/12. However should the proposals be adopted and given the councils policy framework for delivering restructuring and the subsequent saving, I am confident that they could be achieved.
- 33. As the investment proposals are predicated on the saving and given investment proposals are also a target, this means that overall the Labour Groups proposals would still result in a balanced budget without the savings and investment proposal.
- 34. This means that these proposals are not required to deliver a balanced budget and investment spending could be adjusted to reflect actual savings made, so the budget remained in balance.
- For this reason I am therefore satisfied that the proposals are reasonable and could be 35. delivered in part or in full during 2011/12.

# EXPLANATION OF COUNCIL TAX SETTING RESOLUTION

#### **RESOLUTION 1**

- (a) Before we can calculate the Council Tax to be charged, we first have to calculate the Council Tax base. The Council Tax base is the amount which a Band D Council Tax of £1.00 would raise. For 2011/12 we estimate that a £1.00 Council Tax at Band D would raise £35,565.80 in the Chorley area.
- (b) This shows the "base" figure for each Parish in the area. For example, a £1.00 Band D Council Tax in Adlington would raise £1,941.40.

#### **RESOLUTION 2**

- (a) This is the grand total of money which the Council estimates it will spend on all services in 2011/12. It also includes £589,260 which Parish Councils need to run their services.
- (b) This is the grand total of money which the Council estimates it will receive from various sources in the year. This includes, for example, car park charges, investment income, government grants in respect of benefits, etc.
- (c) This is the difference between 2(a) and 2(b) and is in effect the Council's and Parishes net spending on services.
- (d) This is the amount that the Government will contribute towards the cost of our services. Also included is extra Council Tax resulting from new properties and expected collection rates in previous years.
- (e) The difference between 2(c) and 2(d) is £6,976,160 and this is the amount we need to charge Council Taxpayers. This is divided by the base (see 1(a) above) and the resulting figure of £196.15 is the average Band D Council Tax for all Borough and Parish services.
- (f) The total of all the amounts needed from Council Taxpayers by the Parish Councils in the area and for Chorley Borough Special Expenses.
- (g) This is the Band D Council Tax for Chorley Borough Council's own services, ie excluding Parish Council spending and Special Expenses
- (h) This table shows the Band D Council Tax for all parishes <u>including</u> the cost of the Parish Councils and Chorley Borough Council. For example, Adlington's Band D Council Tax is £159.99 for Chorley Borough services and £9.01 for Adlington Town Council services and £4.83 for Chorley Borough Special Expenses.

The rate for each property Band is calculated by reference to the Band D charge. The (i) following ratios apply:

| Band A | <sup>6</sup> / <sub>9</sub> ths of Band D  |
|--------|--|
| Band B | <sup>7</sup> ths of Band D                 |
| Band C | <sup>8</sup> , ths of Band D               |
| Band D | <sup>9</sup> ths of Band D                 |
| Band E | <sup>11</sup> / <sub>9</sub> ths of Band D |
| Band F | <sup>13</sup> / <sub>9</sub> ths of Band D |
| Band G | <sup>15</sup> / <sub>9</sub> ths of Band D |
| Band H | <sup>18</sup> / <sub>9</sub> ths of Band D |
|        |  |

For Adlington Band A, for example, the charge is £173.83 x 6 + 9 = £115.89; for Band B it is £173.83 x 7 + 9 = £135.21.

**RESOLUTION 3** 

Lancashire County Council, Lancashire Fire Authority and Lancashire Police Authority are separate bodies who have worked out their own estimates of spending and income for 2011/12 and have set taxes in a similar way to Chorley Borough Council. This resolution notes their final decision.

#### **RESOLUTION 4**

This pulls together the Council Taxes for Lancashire County Council, Lancashire Fire Authority, Lancashire Police Authority, Chorley Borough Council and the Parish Councils. For example, the Band D for Adlington is £1,492.05 made up as follows:

£
