

## **CHORLEY LIAISON**

WEDNESDAY, 19TH OCTOBER 2016, 6.30 PM  
COUNCIL CHAMBER, TOWN HALL, CHORLEY

### **AGENDA**

#### **APOLOGIES**

1 **WELCOME BY THE CHAIR**

2 **MINUTES OF MEETING WEDNESDAY, 20 JULY 2016 OF CHORLEY LIAISON**

(Pages 3 - 14)

A list of priority areas P1 and P2 for gully cleansing is enclosed. P1 are due to be cleansed annually and P2 are due to be cleansed every 18 months.

3 **ITEM FROM CHORLEY COUNCIL: IRONMAN**

Members of Chorley Liaison will welcome Kevin Stewart, Managing Director and European Regional Director of IRONMAN who will be attending the meeting.

4 **ITEM FROM CHORLEY COUNCIL: PACT MEETINGS**

Members of Chorley Liaison will welcome Inspector Charlie Cox to the meeting.

5 **ITEM FROM CHORLEY COUNCIL: BT CONSULTATION ON PUBLIC PAY PHONE REMOVALS**

(Pages 15 - 22)

The enclosed letter from BT provides details of a consultation it is carrying out on the removal of those public pay phone boxes that had been identified as having little use.

The Director of Early Intervention and Support will present this item.

6 **ITEMS FROM ADLINGTON TOWN COUNCIL**

(Pages 23 - 32)

The requests are enclosed.

Also enclosed, is an update on the progress of LCC Assets Transfer which was requested. This item will be presented by a member of the Council's Performance and Partnership Team.

7 **QUESTIONS FROM MEMBERS OF THE LIAISON AND THE PUBLIC**

In order to allow members of the Liaison and members of the public to raise issues of local concern, a period of 20 minutes has been set aside.

A member of the public may speak for no more than 3 minutes. Members of the public are not required to give notice of the issue they intend to raise, although it is expected in the case of service issues that the appropriate mechanisms for resolving the issue have been explored.

Where a question is raised which cannot be answered at the meeting, a record will be kept by officers supporting the meeting and it will be responded to via the appropriate mechanism.

**8 ITEMS FOR FUTURE MEETINGS**

(Pages 33 - 34)

A schedule setting out deadlines for items to be requested on the agenda for the Chorley Liaison is enclosed.

**9 ANY URGENT BUSINESS PREVIOUSLY AGREED WITH THE CHAIR**

GARY HALL  
CHIEF EXECUTIVE

Electronic agendas sent to Members of the Chorley Liaison Councillor Gordon France (Eastern Parishes) (Chair), Councillor Kim Snape (Chorley Rural East Division, Lancashire County Council) (Vice-Chair) and Councillors Alistair Morwood (Chorley Town East), Anthony Gee (Chorley Town West), Eric Bell (Clayton and Whittle), Doreen Dickinson (Western Parishes), Kim Snape (Southeast Parishes), Alan Whittaker (Southern Parishes), Alistair Bradley (Chorley Town) and Matthew Lynch (Euxton, Astley and Buckshaw).

If you need this information in a different format, such as larger print or translation, please get in touch on 515151 or [chorley.gov.uk](http://chorley.gov.uk)

**MINUTES OF CHORLEY LIAISON**

**MEETING DATE** **Wednesday, 20 July 2016**

**MEMBERS PRESENT:** Councillor Gordon France (Eastern Parishes) (Chair), Councillor Kim Snape (Chorley Rural East Division, Lancashire County Council) (Vice-Chair), Lancashire County Councillors: Steve Holgate (Chorley West Division, Lancashire County Council), Chorley Borough Councillors: Alistair Morwood (Chorley Town East) and Matthew Lynch (Euxton, Astley and Buckshaw) Town and Parish Councillors: Alison Evans (Adlington Town Councillor), Ian Horsfield (Anderton Parish Councillor), Laura Lennox (Astley Village Parish Councillor), John Taylor (Charnock Richard Parish Councillor), Katrina Reed (Euxton Parish Councillor), Malcolm Allen (Heapey Parish Councillor), Graham Ashworth (Heath Charnock Parish Councillor), Peter Lloyd (Heskin Parish Councillor), Marel Urry (Hoghton Parish Councillor) and Terry Dickenson (Wheulton Parish Councillor)

**OFFICERS:** Jamie Carson (Director of Public Protection, Streetscene and Community)

**APOLOGIES:** Chorley Borough Councillors: Alistair Bradley (Chorley Town), Anthony Gee (Chorley Town West) and Alan Whittaker (Southern Parishes) Town and Parish Councillors: Steven Perry (Withnell Parish Councillor)

**OTHER:** Christine Bailey (Health Charnock Parish Clerk), Julia Berry

**16.79 Appointment of Chair and Vice Chair for the year.**

AGREED – Councillor Gordon France (Chorley Borough Council) was appointed Chair and County Councillor Kim Snape (Lancashire County Council) be confirmed as Vice Chair.

**16.80 Minutes of meeting Wednesday, 16 March 2016 of Chorley Liaison**

AGREED – That the minutes of the meeting of Chorley Liaison held on 16 March 2016 be confirmed as a correct record.

**16.81 Item from Chorley Council: New Management Structure**

Jamie Carson, the Director (Early Intervention and Support) informed the Liaison that following Council approval of recommendations on future governance models on 24 November 2015, a senior management review had taken place.

To ensure the Council remained high performing and achieve its ambitions for the future, the senior management structure needed to be reviewed to ensure that it continued to provide a strong base which would –

- Achieve savings in management costs
- Simplify and promote public service reform and integration
- Align functions to fit with the future governance model proposals
- Target and embed resources in priority areas

The Council had identified four key principals which it built in to the new structure and represented four new directorates –

- Customer and Digital; the focus for this directorate was to improve services to customers and making best use of technology by providing as many automated services as possible and one point of contact for residents.
- Early Interventions and Support; the focus for this directorate was on prevention and early intervention and the delivery of the integrated community wellbeing service. This position also took the role as Deputy Chief Executive.
- Business, Growth and Investment; it had been announced that by 2020 local councils would need to be self-sufficient and not rely on government funding. The focus for this directorate was to drive economic growth in the borough.
- Policy and Governance; the aim of this directorate was to drive public services reform and transformation, and look to shared services.

The Chief Executive of the Council remained unchanged, and Heads of Services had been appointed to support the Directors.

In addition to the new directorates, at a separate meeting on the 19 July 2016, the Council also agreed the proposals for an Integrated Community Wellbeing Service, and enter in to formal discussion with the Care Trust Board on the formulation of the service. The confidential report, suggested a three phased approach establishment –

- Phase 1: July 2016 to March 2017; would establish management arrangements and location of service
- Phase 2: April 2017 to September 2018; the creation of a business partnership between the Council and Care Trust which would include staffing arrangements
- Phase 3: October 2018 and beyond; during this phase, the success of the partnership would be reviewed and a final decision be made on the way forward.

Members of the Liaison were informed that the proposals agreed at Council were still subject to approval by the Care Trust Board at its meeting on 27 July 2016.

The report clearly set out the remit of the integrated community wellbeing service to avoid any duplication of work LCC undertake. Officers from Chorley Council liaise with LCC to ensure they were made fully aware of how the service would operate to avoid duplication of effort and resource.

The Chair of LCC's Health Scrutiny Committee suggested that a topic for a future Task Group could review the health and wellbeing service. As well as officers from LCC, representatives from the borough council and Lancashire Care Trust Board could be

invited. There was a commitment from Chorley Council that a representative would be available to attend.

**AGREED – That the updated be noted.**

## **16.82 Lancashire County Council: Consultation on Assets**

### **Lancashire County Council: Consultation on Assets**

Members of the Liaison considered information provided by LCC on its Property Strategy Consultation and their proposals for Chorley. In addition, Parish/Town Councils had been asked to supply details of any expressions of interest that had been submitted to LCC on premises. This information was collated and tabled at the meeting.

The Liaison was informed that Chorley Council had submitted expression of interest in four premises –

- Woodlands Centre
- Coppull Children's Centre
- Highfield Children's Centre
- Adlington Library

No plans for the premises had been drawn up at this stage by the Council, and it would like to work with other interested parties to develop proposals for the buildings' usage.

During debate, it was clarified that only expressions of interest were required to be submitted to LCC by 26 July 2016. On receipt of an expression of interest, LCC would provide financial information on running costs to interested parties so that an informed decision could be made on the feasibility of taking over the premises. It was confirmed that any expression of interest on a premises was not binding. However it would prevent LCC from disposing of the premises until it was recognised no proposals were forthcoming.

If no expression of interest was received for a premise, LCC would proceed to the building's disposal.

There was general agreement that the impact of any closures to libraries and community hubs would lead to an increase in social isolation. It was accepted that social isolation was already a serious issue in rural areas, and any further reduction in services would only compound this problem. In response, County Councillor Holgate explained that a number of initiatives had been planned to mitigate the impact in any reduction of services (e.g. an enhanced mobile library services). However, to ensure their longevity, residents would need to demonstrate that there was a demand for a service by using it.

**AGREED – That the information be noted.**

**16.83 Item from Adlington Town Council : LCC Property Strategy - Adlington Library**

This item was submitted on behalf of Adlington Town Council and followed on from the previous item (minute 16.83) regarding LCC's Consultation on Assets.

It was reported that Adlington Town Council had 'unofficially' submitted an expression of interest in Adlington library and had received some financial information from the County Council on running costs (excluding staffing). Two groups had been set up recently, one of which was to oppose the closure of the library, and the other to raise funds to help towards the running costs should the Town Council take the library over.

Representatives from the Town Council were concerned that if the Town Council submitted an expression of interest in the library, that LCC would automatically withdraw their library services with the expectation that the Town Council would take it over.

The Director (Early Intervention and Support) reminded the Liaison that the borough council had put forward an expression of interest in Adlington library and wanted to work with the Town Council to develop proposals for the premises.

Concern was raised about the effectiveness of LCC consultations, in particular the consultation on transport provision, the results of which had not been published. County Councillor Holgate reassured members of the Liaison that all consultations were taken seriously and the results were considered before any decisions were made.

**16.84 Item from Charnock Richard Parish Council: Highway Verge Cutting**

**AGREED - That the response from Chorley Council be noted.**

**16.85 Item from Charnock Richard Parish Council: Roadside Gully Emptying**

Charnock Richard Parish Council had requested for a programme/schedule of cleaning.

LCC supplied a response to this question which was tabled at the meeting.

In summary, over the last 2 years LCC had carried out extensive intelligence gathering to enable it to provide a gully cleansing programme that was fit for purpose and to ensure that when the jetting crew attend, work was carried out and the service to the community was optimised.

The cleansing programme will now provide:

- Priority one: gullies cleansed every 12 months; these would be gullies that were normally close to full or full at the annual clean and/or gullies that had a history of blocking/flooding the highway.
- Priority two: gullies cleansed every 18 months; these would be gullies that would benefit from routine cleansing minimally every two years as they were

likely to block and cause problems if they were not cleansed over the that time period.

- Reactive: gullies that despite regular visits did not require annual cleaning and that no reports had been received in regards to blocking.

It was noted that the priorities had not been fixed; the programme and its impact would be closely monitored and should local conditions change, the status of the gullies might need to be changed.

Members of the Liaison felt that the programme would not be adequate to prevent gullies being blocked and roads being flooded as a result. However, they welcomed that fact that the programme was being monitored and that gully priority could be altered.

The Director (Early Intervention and Support) informed the Liaison that officers from Chorley Council were assisting LCC in identifying block gullies and pot holes.

The Charnock Richard Parish Councillor thanked LCC for their response. However, would like to clarify that the request was for a programme and schedule of gully cleansing. **Update from Chorley Council: this information follows on from the minutes.**

*At this point Cllr M Lynch left the meeting.*

#### **16.86 Questions from Members of the Liaison and the public**

**Terry Dickenson, Wheelton Parish Council/Chorley Sports Forum**, announced that Chorley Sport Awards would take place on 9 September 2016. Nominations were now open. Further details can be found on the Chorley Council's website <http://chorley.gov.uk/Pages/AtoZ/Chorley-Sports-Awards.aspx>

**Julia Berry** enquired as to what was happening with the circular bus route? **Update from Chorley Council: The response to this question has been included in the report attached to agenda item 6, regarding a progress update on LCC assets transfer, as requested from Adlington Town Council.**

**Marel Urry, Hoghton Parish Council**, had noted that the local police officer was no longer attending Parish or PACT meetings, and asked if other Parish/Town Councils had a similar issue.

The Director (Early Intervention and Support) informed the Liaison, that this matter was being picked up with Lancashire Constabulary and he was hopeful that Inspector Charlie Cox will be in contact with councillors and Parish/Town councils to provide information about PACT meetings and their future.

Members of the Liaison debated the merits of the PACT meetings and raised awareness of other initiatives that the police had undertaken to engage with residents. It was recommended that Parish/Town Councillors sign up to the Police ezine In The Know as it provided details of police drop in sessions which anyone can attend. It was

**AGREED that Inspector Cox be invited to the next meeting of the Liaison to discuss this matter.**

Following the recent Iron Man event that covered parts of the borough, a number of complaints had been directed towards parish councils. To ascertain what the issues were, the Director (Early Intervention and Support) advised that a questionnaire would be sent out to all parish/town councils requesting feedback on the event.

*At this point Parish Councillors Terry Dickenson and Malcolm Allen left the meeting.*

**16.87 Items for Future Meetings**

PACT meetings.

Chair

COPIES TO	

23<sup>rd</sup> September 2016

TIME SENSITIVE - 90 Day Consultation period end date: 21<sup>st</sup> December 2016

Dear Planning Officer

Further to our previous letter, we are writing to you as part of a formal consultation process regarding our current programme of intended public payphone removals. This letter formally starts our consultation with you and the local community.

There are currently 30 public payphones in your area which have been identified and proposed for removal by BT under the 90-day consultation process and details of these payphones are shown below.

To ensure that the local community are fully informed, we have placed consultation notices on the relevant payphones, and a sample notice is enclosed. We have also included the date we posted these notices on the payphones. The consultation period will close on 21<sup>st</sup> December 2016. Unless you contact us to agree otherwise, responses received after this date will not be accepted.

This consultation process gives your local communities the opportunity to adopt a traditional red 'heritage' phone box and make them an asset that local people can enjoy. It's really simple to do and it costs just £1 - <http://business.bt.com/phone-services/payphone-services/adopt-a-kiosk/>

Overall use of payphones has declined by over 90 per cent in the last decade and the need to provide payphones for use in emergency situations is diminishing all the time, with at least 98 per cent of the UK having either 3G or 4G coverage. This is important because as long as there is network coverage, it's now possible to call the emergency services, even when there is no credit or no coverage from your own mobile provider.

You may also want to consider the recent Ofcom affordability report which found that most people do not view payphones as essential for most consumers in most circumstances - [http://stakeholders.ofcom.org.uk/binaries/research/affordability/affordability\\_report.pdf](http://stakeholders.ofcom.org.uk/binaries/research/affordability/affordability_report.pdf)

On the 14<sup>th</sup> March 2006 the Office of Communications (Ofcom) published a statement following their 2005 review of universal service in the Telecommunications market, which includes a requirement for payphone provision to meet reasonable needs. Part of that statement amended our obligations with regard to the removal of payphone service - [http://stakeholders.ofcom.org.uk/consultations/uso/uso\\_statement/](http://stakeholders.ofcom.org.uk/consultations/uso/uso_statement/)

As stated in Ofcom’s 2005 review, it is the responsibility of the local authority to initiate its own consultation process to canvas the views of the local community. They would normally expect these consultations to involve other public organisations such as the Parish or Community councils and work within the terms of the Communications Act 2003. This means that you must be able to objectively justify your decisions.

Full guidance on the removal process can be viewed at:

<http://stakeholders.ofcom.org.uk/binaries/consultations/uso/statement/removals.pdf>

and a summary is available at:

[http://stakeholders.ofcom.org.uk/binaries/consultations/uso/statement/removing\\_callboxes.pdf](http://stakeholders.ofcom.org.uk/binaries/consultations/uso/statement/removing_callboxes.pdf)

The guidance also details the appeals process we must follow in case of unreasonable objections.

**What you need to do next**

Please complete and return the attached annex with your decision on each payphone.

If the decision is that the local community wish to ‘adopt’, please provide their contact details and we’ll do the rest.

If you wish to ‘object’, you’ll need to complete the last column with your reasons, having reviewed all of the factors set out in Annex 1 of Ofcom’s guidance (see link above), and the information sent to you in our previous letter.

If the information is incomplete for any payphone in the list, then we’ll assume you have no objection to its removal and also that you do not wish to adopt it.

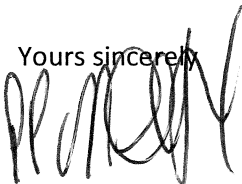

The best way to respond to us is by email at [btp.authorisation.team@bt.com](mailto:btp.authorisation.team@bt.com). Please retain proof that the email was sent or apply a read receipt. If you would prefer to respond by post please use the following address and allow at least two days for postal delivery:

**BT Payphones**  
 pp 4<sup>th</sup> Floor Monument TE  
 11 – 13 Great Tower Street  
 London  
 EC3R 5AQ

You will need to obtain proof of postage from your local post office and be aware that we are unable to receive mail that requires a signature.

If you’ve got any questions then please get in touch with us by emailing [btp.authorisation.team@bt.com](mailto:btp.authorisation.team@bt.com).

Yours sincerely

**Rick Thompson**

## PUBLIC NOTICE

# Payphone kiosk removal

**Hello.**

Our information shows that this phone box has had very little use over a significant period of time.

We're therefore proposing to remove this phone box. There is a consultation period of 42 days from the above date.

**Please contact your Local Authority Planning Department if you have any comments.**

If you'd like to know where the nearest alternative payphone is, or who your local authority is please contact us on:

**0800 661 610 option 1**

This number is only able to provide alternative payphone details and the name of your local authority.

This page is intentionally left blank

## Items from Adlington Town Council

### 1. The progress being made with Asset Transfers

This item will be presented by a member of the Council's Performance and Partnership Team (report enclosed).

2. **The poor condition of footpaths across the borough – the Clerk has recently reported problems with footpath 18 alongside the river Douglas in Adlington. This is now impassable without heavy walking boots due to water erosion and has been the subject of several resident complaints. The Mayor and Clerk walked along this footpath on a warm and sunny day and found it flooded in many sections. In addition residents have reported problems with potholes and poor surfaces in other parts of the village. No action has been taken to improve the condition of local footpaths recently as far as the Town Council are aware.**

David Goode, the public Rights of Way Manager and LCC responded

According to our (LCC) records we have cleared 40 reports of defect over the last 12 months and there are 37 outstanding (note these are reports of defects not defects as our database records 2 reports of the same problem as 2 reports not 1 defect). The outstanding defects include missing signposts, deep mud, ploughed up paths, overgrown hedges, fences erected across the way, path falling into the river, unstable bank, missing waymarks, barbed wire, undergrowth.

Work done include stile repaired, vegetation cleared, fallen tree cleared, waymarkers put up, fingerposts erected, handrail repaired. In other cases the customer was given information that the path had been inspected and it was considered in an appropriate condition or it ran on a different route or was not publicly maintainable.

The footpath by the River Douglas west of the A6 is a particularly difficult problem of which we are aware – there is also a problem east of the A6 which is due to a blocked drain on Network Rail's infrastructure which they're dealing with but the bigger problem is Footpath Adlington 18 and we are hoping to carry out work here within the next year. However, we may be able to improve the path but not necessarily completely resolve the problem as there are constraints with the nature of the ground and the cattle that are grazed there so a boardwalk solution might not be appropriate.

3. **An update on the resolution of the flooding issues from last winter – Some parts of Lower Adlington were subject to serious flooding last winter. Doug Cridland is aware of the issues and possible resolution of these and may be able to give a more up-to-date summary of the situation. The Town Council has not been given an update since the “Making Space for Water” meeting which was due to be held this month.**

Doug Cridland, Waste and Contaminated Land Officer for Chorley Council responded

An update on the flooding at The Common, Adlington site arising from the Making Space for Water meeting held in September was expected at the meeting. However the meeting on this occasion was focussed on Lancashire County Council's (LCC's) section 19 investigation of flooding across the borough.

Nevertheless, The Common is listed as on the affected communities within phase 2 of their s.19 investigation. This means there is the prospect of an investigation into the flooding by LCC's Flood Risk Management team. However, any further work is all priority based and there is currently no indication where this site sits in terms of priority, or the timescales for action.

Chorley Council will work with LCC on any further investigation and share the outcome of our investigations and actions completed to date. The most recent work undertaken by Chorley Council was to rectify a small sinkhole in the grass verge, completed in August. Also some additional investigation has been carried out across the field, where the contractor found an old stone culvert that is running without any apparent restriction to flow through to the open water course to the south east.

At a meeting with residents and a representative of United Utilities (UU) on 7 October, the meeting was informed that –

- UU have approved some sewer improvements near Heaton House.
- UU surveys at Castle Drive and The Common previously found silt accumulation and root intrusion in the drainage system, which was cleared and is now on an annual programme for inspection, silt removal and root cutting where required.
- UU suggested there is a hydraulic capacity issue during extreme rainfall conditions. The estimated cost of improving the network in Lower Adlington is £1.2 million, and they currently do not intend to take forward a scheme on this basis as it is not a priority in their programme of capital work.

There is also the prospect of Chorley Council supporting the community with a local sandbag store. The town council could help with identifying a suitable site that could be used, perhaps a garage or somewhere to place a container?

- 4. Road safety issues in general around the borough, including speed monitoring, requests for parking restrictions and one-way traffic, and the status of “near miss” accident reports – The Council has noted an observed increase in speeding, illegal parking and near-miss incidents reported by pedestrians. The Clerk has reported several near-miss incidents, particularly on the pedestrian crossings located on the A6 in Adlington to LCC, but there does not appear to be a system in place to record these.**

Emma Lane, District Lead Officer for Lancashire County Council responded

In respect of the request for a one-way system in the proximity of the Tesco store on Chorley Road. I can advise formal consultation will take place towards the end of the year or early 2017. Subject to resolution of any objections we hope to implement the new one-way system in spring/early summer 2017.

I can advise the junction of Mill Street/Railway Road has a good accident record with no injury accidents occurring in the last 5 years or longer. Mirrors on the highway were used in the past to assist drivers where visibility is inadequate although they are no longer permitted on the highway by the Department for Transport. The reason is that mirrors whilst providing some benefits, distort the image of on-coming vehicles and give false impression of the speeds of approaching traffic thus making it more dangerous for road users. Officers do not recommend replacing the mirror at this location.

There have been no injury accidents involving pedestrians at the zebra crossing in the vicinity of the White Bear public house and one involving a pedestrian at the zebra crossing in the vicinity of the RBS bank in the last 5 years. There has been a slight injury accident involving a small HGV turning left out of Bank Street colliding with a pedestrian but this did not occur in low light conditions.

As the highway authority we have a finite budget for traffic related schemes and a responsibility to prioritise our resources that best serve the residents and road users in Lancashire. Our current priority is to target those resources at locations with a proven road

safety issue which is determined by significant numbers of injury accidents, in addition to schemes that will contribute to the improvement of the wider highway network. The impact of this prioritisation is that we do not recommend funding to low energy, high luminosity lighting is not recommend at the present time.

Officers will undertake a site investigation at the pedestrian crossing outside the White Bear public house and the crossing near the mini roundabout, to check that all the required lining and signing are in place and if any improvements are considered necessary. I will provide an update on the investigation in the next 6 weeks.

#### **5. An update in to the current lack of accident and emergency provision in Chorley**

##### Andrew Daniels Communication and Events Manager from Chorley Council responded

The Accident and Emergency closed in April due to a shortage of doctors to staff the service and it was replaced by an Urgent Care Centre between 8am and 8pm.

The Lancashire Teaching Hospitals Trust (LTHT) has undergone a recruitment drive but has been unable to recruit enough doctors to plug the gap.

The council and local MP have been continually pressing the LTHT to get the doctors in place and open the A&E, at least on a part-time basis.

The Save Chorley A&E pressure group has been campaigning to get the A&E re-opened too and it is looking for people to join the campaign.

The latest update from the LTHT is that they have still been unable to recruit enough doctors and they announced in the summer that the current position would only be reviewed in April 2017 at the earliest.

The LCC Health Scrutiny committee completed a review of the closure and concluded that it could have been better managed, particularly with regard to working with partners and stakeholders and communicating the changes.

NHS Improvement have been undertaking a review of the decision. The report is due but has not yet been published.

An independent review of the A&E provision has concluded that the A&E could re-open on a part-time basis.

The Lancashire Teaching Hospitals Trust has indicated that it will look to do that in January.

## CHORLEY LIAISON MEETING

### LCC TRANSFORMATION UPDATE

**Meeting date:** 19<sup>th</sup> October 2016

#### Background

1. Lancashire County Council (LCC) has published budget information which suggests a significant shortfall by 2020/21 and they are therefore aiming to make savings by re-modelling the future pattern of their services. Their transformation programme has and will involve many changes to service delivery and their property portfolio across the county as a whole.
2. A brief summary of the changes which have already occurred/ are currently being consulted on/ are due for decision is provided below:
  - a) **Changes to library services** - have recently been consulted on as part of the wider property strategy, the outcomes of this consultation have been published by LCC and have informed LCC's recent Cabinet decision regarding the future pattern of their services.
  - b) **Bus services** - Outcomes of the bus service subsidy review became effective as of April 2016. Chorley Council has mitigated the impact of these changes by subsidising three bus routes in Chorley (24A/109A and 6/6A).
  - c) **LCC Assets / Property consultation** – LCC's cabinet has made the decision to create a network of Neighbourhood Centres across the county and deliver services in a different way by co-locating them in the same building to help towards the savings which need to be made.
  - d) **Wellbeing, Prevention and Early Help Service** – has recently been consulted on as part of the wider property strategy and a final service offer has been established. The service will be delivered from the proposed portfolio of Neighbourhood Centres across the county.
  - e) **Supporting People** – LCC are proposing to cease funding of non- statutory SP services. A transitional period has been put in place to Sept 2017 to better understand need, with a wider view to separating pathways for single people and families and allocation of the early help fund and LCC PEHF underspend.
3. Chorley Council set aside a sum of £500k to mitigate the impact of LCC's transformation work on Chorley residents. The money is intended as short term financing in order to give time and space to find sustainable solutions to issues arising from reductions.
4. This paper will give an update on two aspects of the LCC transformation work, with regards to Chorley:
  - Bus subsidies
  - Assets

**Bus Subsidies**

5. Following LCC’s bus subsidy review (the outcomes of which became effective in April 2016) Chorley Council has been working closely with LCC to ensure that much needed bus routes in Chorley continue to be subsidised.
6. Chorley Council initially worked with LCC to ensure the continuation of three services in Chorley (6/6A, 24A and 109A) for an initial six month period from April- October 2016.
7. The decision has been taken for Chorley Council to continue to fund these routes for a further six month period, until the end of March 2017. This extension period has been agreed on the basis that it will allow for further exploration into more sustainable options for the future of these services.

**Chorley Assets**

8. LCC’s Cabinet have made the decision to create a network of Neighbourhood Centres across the county. The buildings which LCC has deemed as no longer required for future service delivery have been open to a process of application for local organisations and community groups to take on ownership of these assets.
9. Chorley Council submitted a detailed application form for the following assets in Chorley:
  - Adlington Library and Children’s Centre
  - Highfield Children’s Centre
  - Coppull Children’s Centre
10. The business cases submitted for each of the assets were initially assessed and recommendations presented to LCC’s Cabinet on the 6<sup>th</sup> October. The table at **Appendix A** of this report outlines the outcomes of this assessment for Chorley and the proposed future Neighbourhood Centres across the borough.
11. In relation to the assets Chorley Council expressed an interest in, LCC’s recommendations are outlined below:

Asset	LCC recommendation to Cabinet
<b>Adlington Library and Children’s Centre</b>	LCC recommending submission is acceptable subject to negotiation and clarification on some issues.
<b>Highfield Children’s Centre</b>	Building is being retained by LCC.
<b>Coppull Children’s Centre</b>	Submission does not meet the requirements (note. Coppull Primary School to potentially retain the centre for school/nursery use although not yet confirmed by LCC).

12. Chorley Council have been working in partnership with Friends of Adlington Library to secure the future of Adlington Library and Children's Centre. An agreement has just been reached (subject to call in) with Lancashire County Council for Chorley Council to fund the continuation of services at the library and children's centre for an 18 month period, until 31<sup>st</sup> March 2018.
13. The decision means that all libraries in Chorley will be staying open with Coppull and Eccleston proposed to operate as Satellite libraries, something that Chorley Council is also looking at funding to retain previous levels of service.
14. The agreement will allow for a transition period, during which we will have the opportunity to work with Friends of Adlington Library, Town and Parish Councils, community groups and local residents to develop a sustainable model for a community library into the future, a key element of this work will be to identify a sustainable source of funding.

### **Future considerations**

15. Although Chorley Council has come to an agreement with LCC to fund the continuation of both Adlington Library and Children's Centre and specified bus routes; this is for a specified time period only.
16. The continuation of both of the Library and Children's Centre services and specified bus routes has been agreed on the basis that this will allow a transition period for both, during which the sustainability of and potential models for future delivery will be assessed.
17. Chorley Council will be corresponding with both Town and Parish Councils in the near future to discuss options for future service delivery in the hope that we can work together to find a sustainable source of funding for these much needed local services.

**Appendix A - Chorley Assets Latest Position**
