

Southern - Neighbourhood Priorities – October Update

Area	Priority description	Agreed Outcome	October Update
Southern Parishes	2018/19 Creation of a section of footpath on Clancutt Lane/Spendmore Lane, Coppull	If feasible the work would consist of removal of vegetation and trees, remove stumps. Add highway kerbstones, level MOT, Tarmac footpath.	In progress Lead Officer has contacted Coppull Parish Council regards the project and proposed that they could to support the project through Parish Council funds, particular CIL monies. We are awaiting on a response of any potential support and offered to attend Parish Council meeting to present the proposal in more detail
	Improvements to The Meadows Play Area in Heskin	Improved open space for the community of Heskin. The new surfaced path is proposed to provide a clean, dry walking route for the whole community and the new play equipment provide a safe and fun place to play for 2 – 12+ year olds.	In progress A funding bid has been submitted to Lancashire Environmental Fund with successful applicants to be notified in December. Following outcome works will be contracted to deliver improvements depending on funds available
	Intergenerational cooking classes in Coppull	Develop a project within local primary school(s) to address the intergenerational cycle of poor nutrition and obesity by engaging children and adults in regular interactive sessions and creating a resource they can keep and use. Incentivise adults to engage by using time credits for each attendance and build into the project the opportunity to spend	In Progress Lead Officer has been working with Coppull Primary school and their head cook to develop a programme that would target KS2 pupils in the school and an adult in their family such as parents, grandparents, or carers. The programme will run over 4 sessions to allow us the capacity to reach as many families as possible,

		<p>these on local activities that support and promote families to lead a healthy lifestyle.</p> <p>Develop a sustainable model by encouraging adults to become Health and Nutrition Champions to continue activity within the school that promotes a healthy and active lifestyle for families.</p>	<p>with the child and adult working together to cook 4 nutritious meals which they are able to then take home, along with the recipe.</p> <p>The programme is also supported by a local district nurse who can provide discreet nutritional information to the families as they work. At the end of each session the families will receive time credits and will be advised how and where to spend them, with a focus on activity that promotes good health and active lifestyles.</p> <p>The first session took place this Wednesday 18th September, 2:45pm – 4:15pm, and has continued every Wednesday</p> <p>Currently there are eight families on the first programme, which focussed on building good knife skills and an understanding of safe practice in the kitchen. The families made a fruit salad which they were looking forward to taking home to share, and then learned how to make a smoothie which they enjoyed tasting together.</p> <p>We are in discussions how the project could continue beyond the scope of the funding available, with the potential of using this funding to train some of the adults who take part in the course to be able to lead on it going forwards with support from the school. This opportunity will be explored during the programme.</p>
