

Council Chamber project – update 26 Feb 21

Brendan and Ruth did a site visit this week to see how the furniture is progressing.

A note was found under the chair, presumably signed by people who worked on it. The date stamp is 1879 and the chair has not been reupholstered since then.

The original springs and horse hair can be seen under the new webbing. You can also just see the stamp 'Andersons'.

The Chair has been stripped down ready to be refurbished.
