

Neighbourhood Priority Proposal Form

This form is to assist initially scoping a proposed priority for delivery in 2022/23

Members will be invited to agree Neighbourhood Priorities through Neighbourhood Area meetings held in January and February

The council is committed to supporting projects and partnership delivery that focuses on the wider determinants of health as these issues impact on the daily lives of our residents, how happy and healthy they feel living in in their community and in turn their individual life choices and outcomes.

When proposing a project, it may help to consider if it would help:

- Support and enable residents to feel proud of where they live
- Support residents to take an active part in their community
- Provide opportunities to make communities healthier
- Provide employment or education opportunities
- Provide opportunities that address food poverty
- Provide opportunities that help encourage residents to be more active
- Provide support to make residents more digitally connected
- Provide peer support opportunities for those experiencing difficulties
- Provide opportunities to addresses social isolation
- Provide support for those experiencing financial hardship

Funding

Chorley Council commits a £50k budget investment to support priorities which is subsequently allocated to each agreed priority project.

While the council continues to support the delivery through funding and officer time, each neighbourhood area is encouraged to consider what match-funding and support may be available through other partners or funding opportunities. This has been a successful in recent years in achieving projects that would otherwise have not been delivered.

Please complete all sections with as much detail as available

Neighbourhood Area Group	
Issue you would like to improve through this project (from above list)	

<p>Suggested Project</p> <p>Give details of what you think could be delivered</p>	
<p>What are the expected outcomes?</p> <p>How will it enhance the life of people in the community?</p>	
<p>Is there any evidence you have that supports the outcomes you have identified?</p>	
<p>What other partners may need to be consulted in order to deliver the project</p>	
<p>What are the anticipated costs of the project? Is it achievable within the budget?</p>	
<p>Is there any funding identified from other sources towards the project?</p>	
<p>Do you feel the project can be completed by March 2023? (Including time for investigation / research if required)</p>	
<p>Any other information you feel relevant</p>
