

FAO Jonathan Noad at South Ribble Council, Tracy Brzozowski and Nathan Howson at Chorley Council cc Cllr Alan Whittaker

I refer to your email dated 23 January 2022 to Cllr Alan Whittaker in connection with the above application, which he has shared with me and other residents locally.

I have read the application (received by the Council on 7th January 2022), together with the four Late Temporary Event Notices that were lodged on 28th January 2022 in respect of the above event and wish to register an objection.

However, before I state my reasons for the objection I am a little confused that the closing date set by you for comments is 4th February but on Friday 28th January a person linked to One Digital Outdoor Ltd delivered letters to all local residents stating the proposed launch date was Friday 4th February and a full programme will take place on various days over the five weeks following weeks. Has approval already be granted or are the events proceeding regardless of Council approval?

In respect of my objections they are as follows:

1. I am concerned the events will be detrimental to peace and quite of this semi rural area and the enjoyment of my home if alcohol is permitted from 13.00 – 23.00 seven days a week. The venue has only one entry and access road and several hundred cars leaving from 23.00 hrs onwards will certainly impact on noise levels in the area and that is assuming it's only car sounds and not including any revellers that may wish to arrive in groups and on foot. On one level this appears to be a 'drive-in' event so the consumption of alcohol over several hours is a key factor here as well as maintaining public order. I do not feel this should be dealt with individually with each department or committee only looking at one aspect – it is a Council responsibility to see the bigger picture when it comes to residents.

3. I am concerned that noise from this event – the playing of films several times a day and loud music, despite the assurances from the Company that this has been addressed when completing the building phase will be an intrusion and again respect that access to alcohol be managed accordingly. I am not suggesting that no license be granted but that the Committee (I am assuming this will go to the full Committee and not the Sub-Committee – if you could confirm this I would be grateful) balance the views of residents as well as the applicant.
4. I have reviewed your Statement of Licencing Policy, in particular your opening 'Policy Vision Statement... We want Chorley to be a safe and clean town that offers a greater diversity in the night-time economy that is less focused on alcohol and protects the quality of life for residents.' That is all I am requesting here – a balanced approach.
5. One final comment in respect of this whole event, which has been brought to my attention by the organisers in their letter under the web address <https://parknpartymcr.co.uk/> - this is the promotional 'blurb':

CAMELOT RISES FROM THE DEAD

This is Camelot, but not as you know it. Drive-in to the post apocalyptic, zombie infested world of Camelot Rises.

A deadly accident has left the mythical world of Camelot destroyed...and full of zombies hungry for human flesh. As the army fight to keep control of the park, it's your turn to see if you can survive a deadly night of terror.

With a fully immersive, interactive zombie experience, tantalising food & drink to gorge on, and a host of the greatest (and scariest!) zombie films ever made, this is an experience not to be missed – if you can handle it.

Please be aware – this event is not for the faint of heart. There will be flashing lights, loud noises, smoke, fake gore, zombie attacks, and much more. As such, please bear this in mind before attending the event. Should someone who is likely to suffer as a result of the above ignore this warning, we will not be liable for this.

Please acknowledge receipt of this objection.

Regards

Doreen Hounslea
