Dear Sir/Madam,

Application for a Premises Licence to be granted, Astley
Park, Chorley, PR7 1RF

I write to strongly oppose the application for a premises licence.

The licence is totally inappropriate for Astley Park.

The premises is surrounded in by domestic property in close proximity. The noise from events held on the park travels to such an extent that it causes a severe lack of amenity, living nearby is intolerable. The noise carries into the houses and flats in the surrounding area. Gardens and outdoor spaces around are not tennable. Live music from 0900-2300 or recorded music is simply unacceptable to the surrounding residents. Situated very close to Astley Park are sheltered accommodation for the elderly. Most residents retire to bed 8pm to 9pm. It is wrong to subject them to the noise which will emanate from Astley Park if a licence is granted. In addition there is a elderly community and families who reside close to Astley Park who would be subject to the same intrusion and disruption if this licence is granted.

It is even more important these days that our shrinking green space and environment is protected from noise , crowd gatherings where drinking is involved and inevitable rowdiness.

[REDACTED]

The granting of a premise licence for alcohol in Astley Park would be wholly inappropriate. Chorley Borough Council would be operating against the principles of a responsible Council and be seen to be acting irresponsibly if this application is supported on the grounds stated.

Please consider my objection and I ask that you do not support the application for a premises licence to Astley Park and the application is rejected.

Would you please acknowledge receipt of this letter.

Yours sincerely,

JJ Trafford
