Issues for discussion:

1. Review of the existing Clean Air Strategy.

Recommended decision

2. To agree the changes.

Report/information (attached):

3. A dedicated Air Quality Officer joined the Council in January 2022 and this has combined the air quality work programme into one role.
4. The Clean Air Strategy 2021 has been reviewed and simplified with consideration to the recent Climate Change Strategy. Some points from the action plan were a better fit within the Climate Change strategy and have been transferred.
5. Results from the Clean Air Strategy Public Consultation have been reviewed and integrated into the updated Clean Air Strategy.
6. The previous action plan has been refreshed to update the milestones and introduce new targets to build upon the consultation and work already completed.
