It set out a new vision, priorities, objectives and action plan to provide direction and guide the allocation of resources and was developed based on data relating to the local business demography, economic trends and national economic policy.

In response to a query Councillor Bradley noted that there was a lack of investment in the east of Lancashire and that there was a 'travel to work' area, which included neighbouring authorities. The new 'investment zones' had been announced the previous week so more information was needed about them before any decisions relating to them.

Members discussed the potential to invite businesses from the local service centres to future discussions.
