

Correction Note

FAO: Director of Delivery and Change and Executive Member (Resources)

Report: Chorley Quarter 4 Performance Monitoring 2023/24

Nature of Correction: Performance Measure Year to Date

Details:

The performance for the major and minor planning applications decided within timescales indicators were reported in the quarter four monitoring report as in quarter rather than year to date. The year-to-date percentage provides an indication of performance within the context of the financial year (April – March) and both indicators below are performing above target.

Following review, the amendments below are notified to the owners of the appropriate report.

Amendments:

- Percentage major planning applications decided within 13 (16 for EIA) weeks or agreed time extension

	Key Performance Indicator	Target	Quarter 4 2023/24	Symbol	Trend (Compared to same period last year)	
Original (In quarter)	% MAJOR planning applications decided within 13 (16 for EIA) weeks or agreed time extension	80%	67%	▲	Worse than Q4 2022/23	87%
Amended (YTD)	% MAJOR planning applications decided within 13 (16 for EIA) weeks or agreed time extension	80%	88%	★	Worse than Q4 2022/23	91%

- Percentage of minor planning applications decided within 8 weeks or agreed time extension

	Key Performance Indicator	Target	Quarter 4 2023/24	Symbol	Trend (Compared to same period last year)	
Original (In quarter)	% MINOR planning applications decided within 8 weeks or agreed time extension	85%	99%	★	Worse than Q4 2022/23	100%
Amended (YTD)	% MINOR planning applications decided within 8 weeks or agreed time extension	85%	99%	★	Same as 2022/23	99%
