# CHORLEY COUNCIL PERFORMANCE MONITORING - SECOND QUARTER 2012/2013

#### **PURPOSE OF REPORT**

 This monitoring report sets out the performance against the delivery of the Corporate Strategy and key performance indicators during the second quarter of 2012/13, 1 July to 30 September 2012.

## **RECOMMENDATION(S)**

2. That the report be noted.

#### **EXECUTIVE SUMMARY OF REPORT**

- 3. This report sets out performance against the Corporate Strategy and key performance indicators for the second quarter of 2012/13, 1 July to 30 September 2012. Performance is assessed based on the delivery of key projects, against the measures in the Corporate Strategy and key service delivery measures.
- 4. Overall performance of key projects remains excellent, with a majority of the projects on track or completed. Only two projects have been rated 'amber', 'explore the development of a service package for accommodation for 16/17 year olds', and 'Implement the framework for strategic partnerships', further explanation of the reasons and the actions being taken to bring the projects back on track is provided within the body of the report.
- 5. Following the refresh of the Corporate Strategy, this report provides a progress update on all projects which have not yet been completed and identifies those that will be managed and monitored through service improvement plans from now on. The report also includes details of the one project that has been carried over into the new corporate strategy. This is the project to implement the customer services migration plan.
- 6. Overall performance on the Corporate Strategy measures and key service delivery indicators is good. 67% of the Corporate Strategy measures are performing above target or within the 5% tolerance, and 80% of the key service measures are performing above target or within the 5% tolerance.

- 7. The Corporate Strategy measures performing below target, are 'the % of 16-18 year olds who are not in education, employment or training (NEET)', 'new businesses established', and '% of customers satisfied with the way they were treated by the Council'. In each case an action plan has been developed to outline what action will be taken to improve performance.
- 8. The key service delivery measures performing below target is the processing of minor planning applications and again an action plan is included within the report that outlines what actions are being taken to improve performance.

| Confidential report Please bold as appropriate | Yes | No  |

| Key Decision?                                  | T   | T., |
| Please bold as appropriate                     | Yes | No  |

#### REASONS FOR RECOMMENDATION(S)

## (If the recommendations are accepted)

9. To facilitate the on-going analysis and management of the Council's performance in delivering the Corporate Strategy.

#### ALTERNATIVE OPTIONS CONSIDERED AND REJECTED

10. None

#### **CORPORATE PRIORITIES**

11. This report relates to the following Strategic Objectives:

| Involving residents in improving their local area and equality of access for all |       | A strong local economy  | 1 |
|--|-------|---|---|
| Clean, safe and healthy communities  | √<br> | An ambitious council that does more to meet the needs of residents and the local area | V |

## **BACKGROUND**

- 12. This is the first monitoring report since the refreshed Corporate Strategy approved by Full Council on the 6 November 2012. The strategy has been completely revised this year, including a new vision for the council, replacing of the nine strategic objectives with four new priorities, and setting out 19 projects and 29 measures most of which are new.
- 13. Monitoring of the new Corporate Strategy will commence from quarter three onwards.

## PERFORMANCE OF KEY PROJECTS

14. There are 17 key projects in the Corporate Strategy for 2011/2012 – 2014/15. Overall performance of key projects is excellent. 15 of the 17 projects (88%) are either completed, on track or scheduled to start later in the year.

15. Following the refresh of the Corporate Strategy the table below provides an update on the key projects that have not yet completed from the 2010/2011 – 2013/14 Corporate Strategy. These will now be managed and monitored through service improvement plans.

| Project  | Q2 Rating | Progress to date and next steps  |
|--|-----------|--|
| Develop and deliver a bus shelter improvement plan                       | Green     | Contracts have been awarded for the refurbishment and repainting of existing bus shelters and the purchase of 40 display boards.   |
|  |           | The procurement for the replacement bus shelters is also underway.   |
|  |           | All work is expected to be completed by the end of January 2013, at a cost of £52,000, £23,000 less than the original budget.  |
| Deliver phase two of the support for high quality independent businesses | Green     | This project extends the successful shop floor refurbishment and business rate subsidies to local service centres.   |
|  |           | The new scheme has been launched in the local press and three shop floor improvement applications have been received.  |
|  |           | Further promotion and marketing of the scheme is being planned to improve uptake.  |
| Start up support for local businesses                                    | Green     | A new business advisor has now been in post since May 2012. To date 60 clients have been seen, 15 start ups identified, a number of events have been held or are being planned and a new starting in business grant has been introduced.   |
| Develop a scheme to encourage volunteering among older people            | Green     | Analysis of the opportunities and barriers to volunteering among older people has been carried out. This has led to the development of a guide to encourage more people to volunteer. Additional actions, identified as part of this work will be delivered through the Uplift time credits (Spice) project or improving volunteering works which is being delivered by the VCFS network. It should be noted that Uplift time credits has already delivered over 160 volunteering hours in Chorley in the past few months. |
| Refresh the council's website  | Green     | The Council's new website is on track to go live at the end of October. The new website will increase self-service functionality and encourage customers to transact with the Council online. In addition it will centralise a range of transactional elements including forms with integrated payments, service information, mapping, social media and account functionality. All processes will be integrated through a single platform to ensure the best possible customer experience.                                 |
| Deliver the allotment project  | Green     | Council-owned land has been identified for allotment creation and site investigations have been carried out. These included soil sampling, ecological surveys, historical checks, utility  |

|  | 1     |  |
|--|-------|--|
|  |       | checks, land registry amendments and consultation with statutory and non statutory organisations.  Consultation with local residents and ward councillors together with planning applications have seen some sites discounted, while others such as Manor Rd, Clayton-le-Woods has been approved and constructed.  |
| Deliver the Lex s106 open spaces scheme                            | Green | The scope of this project focuses solely on the improvements to the existing council-owned Recreation Ground. This includes:   |
|  |       | <ul> <li>Improvements to the play facilities;</li> <li>Creation of a footpath and safe cycling route through the spine of the site;</li> <li>Lighting to the new central spine;</li> <li>Allotment provision; and</li> <li>Landscaping improvements.</li> </ul>  |
|  |       | While some progress has been made on each of the points above, there are a number of issues that are impacting on the timescales and are likely to impact on cost of this project. These include issues with surface water run-off, the discovery of a second mine shaft within the area and securing permissions for allotment provision from trustees.   |
| Relocate the council's depot                                       | Green | This project has been split into two phases. The first phase is to identify a preferred option for a new depot site and the second phase is to implement it. Phase one is substantially complete. Most staff have been relocated to Union Street and the remaining staff are due to move by the end of November. The options to relocate the depot will be presented to Executive Cabinet in December. Phase two, the implementation of any move will then commence in the new year. |
| Deliver the SharePoint EDMS project                                | Green | Negotiations with both Northgate and an independent supplier for the provision of a council wide solution for customer documentation management have been successful.  |
|  |       | The solution has already been extended to several new service areas within the council and plans to upgrade the software are in place and expected to be completed in early November.  |
|  |       | Customer services and housing are expected to be involved in the software rollout before Christmas by which time most front line services will have been included.   |
| Explore the development of a service package for accommodation for | Amber | This project is amber due to issues and delays which are beyond the Council's control.   |
| 16/17 year olds  |       | The aim of the project was to remodel the service provision at the Parker Street, in order to provide  |

|  |                | a bespoke homeless service for 16 and 17 year olds.  Proposals about changes required to the existing service model of Parker Street, were developed with Supporting People (SP) and we are waiting for the existing service provider to respond with a revised business model and costings.  It is however likely that the whole service will require re-tendering, but due to the timetable for SP to extend all contracts for existing SP services across Lancashire it is most likely the new service will not be retendered before March 2013 and therefore the existing service will continue as it is for 2013/14.  Due to the uncertainties around this site, other options and sites will now be explored. |
|--|----------------|---|
| Implement the framework for strategic partnerships | Amber          | Meetings with service heads have enabled a list of potential options to be identified for potential partnership arrangements and insourcing opportunities. This work has now been placed on hold due to the dependencies on other projects such as the transactional services review.   |
| Deliver year two of the play and recreation fund   | Not<br>started | The play and recreation fund has not currently commenced as the Council wishes to collect additional commuted sums which are for Borough wide and not specific site provision in order to make a second bidding round of value to the applicants. This project will be re-started and managed as part of Planning's service improvement plan once enough funds are in place to warrant delivery of the scheme.  |

16. One project (6%) have been completed during the last quarter, and the initial outputs of this project are detailed below:

| Project Title  | Project Status |
|--|----------------|
| Develop an action plan to tackle social isolation in the borough | Complete       |

A task and finish group was established with cross-cutting representation from Age UK, Lancashire County Council adult services commissioning, LGBT groups, Cross Roads Care, Lancashire Fire and Rescue, Disability Equality North West and local Parish Councils. Members of the Youth Council for Chorley also provided feedback.

The work of the task and finish group has confirmed the initial assumption that social isolation is very complex and therefore requires a longer term more complex solution. However there are a number of initial recommendations that were implemented as first steps towards having a positive impact on social isolation locally. These recommendations were:

# **Key Outcomes**

- 1. Communicate findings with key partners to raise awareness and further develop local insight
- 2. Coordinate community activity, outreach and volunteering work to target those at risk of social isolation
- 3. Work with partners to develop a more joined up approach including a single point of contact
- 4. Influence future service commissioning and design to take a preventative approach
- 5. Develop a package of future work on vulnerable families to identify and better understand the economic causes of social isolation and assess support.

An action plan was drawn up using these recommendations which has now been completed.

- 17. The implementation of the customer services migration plan is the only existing key project being carried out in the new Corporate Strategy. The scope of the project, however, has been extended to also include the migration of service into the new transactional services team. The project title has also been revised and will now be known as 'Migrate services into the front office'.
- 18. A new project mandate has been developed that sets out what the revised aims, objective and scope of the project are. This includes, but is not limited to;
  - a. Reviewing and updating the current customer service migration plan, to ensure realistic dates and incorporate any further services as required.
  - b. Developing a plan for migrating services into the new transactional services team. This will initially include new processes and progressively take responsibility for the processing of customer requests that are unable to be resolved at the first point of contact.
- 19. In terms of progress of the current project at the end of quarter two, the project is rated green. The Land Charges service is now delivered on a self-service basis via the website with a small number of appointment only searches being carried out in Customer Services, training for NNDR is underway, work has begun on scoping the licensing processes and a preliminary meeting has been held with housing to discuss the scope of the transfer of the service.

#### PERFORMANCE OF CORPORATE STRATEGY MEASURES

- 20. At the end of the second quarter, it is possible to report on 9 of the key performance indicators within the Corporate Strategy. Performance in those indicators is good, with 6 (67%) performing on or better than target. The full outturn information for the performance indicators is included at Appendix A.
- 21. The following indicators are performing better than target:
  - Overall employment rate
  - Street and environmental cleanliness Litter
  - Street and environmental cleanliness detritus
  - Street and environmental cleanliness graffiti
  - · Street and environmental cleanliness flyposting
  - Vacant town centre floor space
- 22. Three indicators (33%) performed below target; this is the number of new businesses established, the % of 16-18 year olds who are not in education, employment or training (NEET), and the percentage of customers satisfied with the way they were treated by the Council.
- 23. The tables below give the reasons for this worse than anticipated performance, and the steps that are being taken to improve performance:

|                           | Performance Indicator  | Target  | Performance   |
|---------------------------|--|---|---|
|                           | 16-18 year olds who are not in education, or training (NEET)   | 5.1   | 5.8   |
| Reason<br>below<br>target | A high level of clients were recorded as 'not know percentage of the 'not knowns' are then included which shows our performance to be worse than a knowns' were young people who had left college con a further option of study. In addition, the measure in the new Corporate Strattarget underperformance through measuring dissatisfication levels. | ons to addrest lack of response by a sand enquires a tegy has been  | s the issues.  se or follow all Heads of are dealt with changed to |

# PERFORMANCE OF KEY SERVICE DELIVERY MEASURES

24. There are some important indicators that are not included within the Corporate Strategy, but are measured locally as indicators of service performance. There are five indicators that can be reported at the end of the fourth quarter. The full outturn information for this is included at Appendix B: Key Service Delivery Measures.

- 25. The following are performing better than target:
  - Number of families in temporary accommodation
- 26. Three indicators (11%) are performing slightly below target, but within the 5% tolerance threshold:
  - Time taken to process housing benefit/council tax new claims and change events
  - Processing of planning applications as measured against targets for 'major' application
  - Processing of planning applications as measured against targets for 'other' application types
- 27. There is currently one indicator that is performing worse than target. This indicator relates to the percentage of 'minor' planning applications determined within a timely manner. The table below give the reasons for this worse than anticipated performance, and the steps that are being taken to improve performance:

|                           | Performance Indicator   | Target  | Performance  |
|---------------------------|---|---|--|
|                           | Processing of planning applications as measured against targets for 'minor'   |   | 51.754%  |
| Reason<br>below<br>target | The issues which effected performance at the beginned impact on the performance of this indicator, which is the rest of the year.  The issues include:  a significant increase in the volume of minor ap significant printing demands generated from and  problems with printing and indexing have also to easily and effectively process applications as Overall, as the target timescales for these types of ap weeks), issues such as these can easily impact on per | plications; safeguarded land impacted on the safey are received                         | elow target for d applications; service's ability d. |
| Actions required          | A number of measures have been put in place include modifications, management controls and temporary IC to improve the ability to monitor and manage workflow enabling managers to more easily monitor and maservice. In addition the service has:  • implemented improvements to processes and workflow introduced a traffic light system for the processing introduced a red box system to fast track process introduced twice weekly case management discussions.    | CT fixes. The enter whas been imple anage performant orkflow; g stages; sing tasks; and | erprise module mented and is                         |

# **IMPLICATIONS OF REPORT**

28. This report has implications in the following areas and the relevant Directors' comments are included:

| Finance                                  |   | Customer Services                      |  |
|--|---|--|--|
| Human Resources                          |   | Equality and Diversity                 |  |
| Legal                                    |   | Integrated Impact Assessment required? |  |
| No significant implications in this area | ✓ | Policy and Communications              |  |
