Health & Safety
Under the CDM regulations 1994 the principal contractor or subcontractor for a particular element shall provide:
1. A risk assessment and method statement of every element of the construction they are to carry out.
2. Provide and maintain fencing, hoardings and adequate warning signs to protect the public and the operatives.
3. Provide adequate access of means of escape and within the site for Fire, Ambulance and Personnel - including Scaffolds, Walkways, Ladders and Hoists designed and constructed to the current standards.
4. Provide protective clothing and safety equipment as necessary for the safety team members.
5. Provide adequate storage for all materials in supplier/manufacturers recommendations.

All work is to be in accordance with current Building Regulations and comply with Robust Details for limiting thermal bridging & air leakage and Robust Details Part E - Resistance to the passage of sound.
All dimensions and levels are to be checked on site prior to starting.
Do not scale from this drawing. This drawing is the property of the architect
