

Photoviewpoint B: View east across the northern part of the site from PRow 9-13-FP8.

Photomontage B: Looking east along the footpath route, mature vegetation along the river would be removed and the embankment would shorten the view. The top of the kiosk and railings, culvert wing walls and spillway will be visible, but new shrub and tree planting will help to filter views once it establishes.

Project

CROSTON FRMS DETAILED DESIGN

Note:

1. All dimensions in metres unless stated otherwise.

2. For viewpoint locations refer Figure 7.2: Visual Analysis, Photoviewpoint and Photomontage Locations.

3. Photomontage illustrates the view on a summer's day after 15 years with mitigation planting in place.
