

CHORLEY CENTRAL COMMUNITY FORUM

ACTION TAKEN ON ISSUES RAISED AT THE MEETING HELD ON

8 MARCH 2007

YOU SAID	WE DID
Who will carry out the duties that the Neighbourhood Wardens did but the Police Community Support Officers' will not e.g. Fly tipping or cleaning up graffiti	A team of 8 Neighbourhood Officers will carry out a wide range of Environmental duties across the borough. Skip Weekends will also continue to be funded.
What environmental improvements will be provided in the next phase of the Market Walk development?	New surfaces, planting schemes, pavements and street furniture such as benches and bins are to be provided.
Will Chorley continue to be a Market Town?	We are actively looking at ways to improve on the existing market, hoping to attract new traders that will provide a wider range of diversification and attract new customers to the town.
Will the Pets Corner be continued in Astley Park?	Yes, following public consultation the Executive Cabinet has decided that Pets Corner should be retained.
Why is there no café in Astley Park?	When the works are completed a café will be provided.
Can you involve the children more, when deciding how play resources should be allocated?	The Junior Warden Scheme at Yarrow Valley Park is one example of how we involve children at this level. We will consult with Schools and their School Council's more in the future.
Can the M61 Motorway be resurfaced to make it quieter?	We contacted the Highways Agency and they indicated that the M61 between junctions 6 and 8 has had several sections replaced with a thin surfacing material, which is very effective in reducing tyre noise, as part of their programme of routine

	<p>maintenance.</p> <p>There is no maintenance for the M61 in the current programme but as soon as it does become due, the Highways Authority will be laying thin surfacing to help alleviate the problems.</p>
<p>When will the Friday Street Health Clinic development begin?</p>	<p>The representative of the Primary Care NHS Trust will report on the current position at the Forum meeting to be held on 27 June.</p>
<p>Will the Police Community Support Officers attend the various community group meetings across the area?</p>	<p>The new scheme will mean more involvement and liaising with the community.</p>
<p>Crosse Hall Canal Bridge No.76 is a listed structure. Can it be re-surfaced?</p>	<p>We have contacted United Utilities at Wigan and requested that the works be carried out as soon as possible.</p>
<p>Can we have a salt bin and a place for passing cars on Crosse Hall Lane?</p>	<p>The first 125 metres of the lane has been made up to adoptable highway standard but the remainder of the lane as the status of a private road. Despite extensive research by the Borough Council, County Council and the developers, Morris Homes, the ownership of the lane is unknown.</p> <p>The land does not meet the criteria adopted by the County Council for the provision of salt bins.</p> <p>The County Council has requested Morris Homes to put in a passing point on the lane as a good will gesture on the unmade length of the lane.</p>
