

CHORLEY COUNCIL
COMMUNITY INFRASTRUCTURE LEVY
Regulation 123 List

Adopted September 2013

The Regulation 123 List was updated October 2017

Central Lancashire Community Infrastructure Levy

Introduction

The purpose of the list is to demonstrate the broad range and type of infrastructure that it is likely the Council will seek to spend CIL funds upon. This is a 'living' document and will be the subject of on-going update and monitoring.

Regulation 123 List

The Community Infrastructure Regulations 2010 (as amended) restrict the use of planning obligations where there have been 5 or more obligations in respect of a specific infrastructure project or type of infrastructure entered into on or after 6 April 2010.

The Regulations (paragraph 123) provide for a charging authority to set out a list of projects or types of infrastructure that the levy is intended to fund, and this is referred to as the 'Regulation 123 List'.

The purpose of this Regulation 123 List is to ensure clarity on what CIL might be spent on and there is no duplication ('double dipping') between CIL and S106 agreements in funding the same infrastructure projects.

A CIL charging authority is expected to publish a list of infrastructure that it intends will benefit from CIL on its website. The Council can review this list at least once a year as part of its monitoring of CIL collection and expenditure.

The inclusion of a project or type of infrastructure in this list does not signify a commitment from the Council to fund either in whole or in part the listed project or type of infrastructure through CIL. Nor does the order of the table imply any order of preference or weighting of one project as opposed to another.

Payment of CIL does not replace S278 agreements, as S278s are not planning obligations. A S278 Agreement (under Section 278 of the Highways Act 1980) is made between a developer and a Highways Authority to enable works to be carried out on the public highway to facilitate development. The need to enter into a S278 usually arises as a result of a planning application and will be a condition of the planning consent. Examples of works delivered through a S278 agreement include construction of a new access junction, improvement of an existing junction or safety related works. Authorities can use monies from both sources to fund improvements to the highway network. A S278 agreement can be entered into to boost CIL funding towards these schemes.

Background

The Regulation 123 List (adopted September 2013) was derived taking into account the background supporting documents that were prepared in association with the Central Lancashire Strategy (adopted July 2012), which sets out the infrastructure needed to deliver the development set out in the Strategy up to 2026 and the Lancashire County Council adopted LTP3 Strategy and Implementation Plan 2011-2021 which sets out the strategic objectives for transport and travel.

Infrastructure projects to be funded in part by the CIL

CHORLEY INFRASTRUCTURE DELIVERY SCHEDULE

PROJECT	TIMING	FUNDING DEFICIT £M
