

CHORLEY PARTNERSHIP SCRUTINY TASK GROUP

Some suggested questions for Allan Jones, Chair of the Chorley Partnership Board.

1. How has Chorley gained from having a Local Strategic Partnership and how might it benefit in the future?
2. What would you do to improve the performance of the LSP and how can we get the different parts of the LSP to deliver with greater synergy?
3. Do you think there is the right mix of partners on the LSP Board, Executive and Thematic Groups?
4. Do you think there are any other key bodies who should be involved in the Partnership?
5. In deciding on LSP projects in the future, how do you think partners would react to fewer but higher value projects?
6. The Council has committed a significant level of resources to the LSP, in terms of both officer resources and funding for projects. How can we convince other partners to increase their contributions?
7. What do the private sector members get out of being associated with the LSP and how can we persuade more to get involved?
8. How do we market the Borough for investment outside this area, how can we persuade investors from other parts of Britain and Europe to invest in Chorley?
