Appeal Decision

Inquiry held on 14-17 and 21-24 August 2018 Site visit made on 24 August 2018

by Phillip J G Ware BSc(Hons) DipTP MRTPI

an Inspector appointed by the Secretary of State

Decision date: 19th November 2018

Appeal Ref: APP/R1038/W/17/3192255 Land at Deerlands Road, Wingerworth

- The appeal is made under section 78 of the Town and Country Planning Act 1990 against a refusal to grant outline planning permission.
- The appeal is made by Ripon Homes Ltd against the decision of North East Derbyshire District Council.
- The application Ref 17/00268/OL, dated 3 March 2017, was refused by notice dated 14 December 2017.
- The development proposed is a residential development of up to 180 dwellings, public open space, landscaping, highway and drainage works and associated infrastructure.

Procedural matters

- 1. The application was submitted in outline, with only access and scale to be decided along with the principle of the development. I have dealt with the appeal in this manner.
- 2. A Planning Obligation (31 July 2018) was submitted before the Inquiry opened, and I have considered its content below.
- 3. As anticipated at the Inquiry, amendments to Planning Practice Guidance (PPG) and updated household projection figures were published after the Inquiry. The views of the main parties were sought on these matters and the responses have been considered in this decision.
- 4. In October 2018 a consultation paper was issued regarding possible updates to national planning policy and guidance, including the standard method of assessing local housing need. This paper was raised by the Council on 31 October. The appellant was given the opportunity to comment on this matter, which they did on 7 November. This correspondence has been taken into account.

Application for costs

5. At the Inquiry an application for costs was made by Ripon Homes Ltd against North East Derbyshire District Council. This application will be the subject of a separate Decision.

Decision

6. The appeal is allowed and planning permission is granted for a residential development of up to 180 dwellings, public open space, landscaping, highway

and drainage works and associated infrastructure on land at Deerlands Road, Wingerworth in accordance with the terms of the application, Ref 17/00268/OL, dated 3 March 2017, subject to the conditions appended to this decision.

Main issues

- 7. The application was recommended for approval by officers but was refused by the Council on 14 December 2017. There were five reasons for refusal, three of which are no longer being defended by the authority. These related to the adequacy of the sewerage system, the need for social infrastructure and the effect on highway safety.
- 8. There are two main issues in this case, which reflect the Council's two remaining reasons for refusal:
 - The effect of the proposal on the character and appearance of the area
 - Whether the proposed development would be accessibly related to the settlement of Wingerworth

Reasons

The site and the proposal

- 9. The appeal site is an area of rough grazing land around 7 hectares in extent located northeast of Deerlands Road and east of Hockley Lane. There are trees and hedgerows along many of the site boundaries. The land rises up to the north from Redleadmill Brook at the south of the site towards Hockley Farm and other properties, including Wingerworth Hall Gardens. To the east of the site are further fields and large areas of woodlands.
- 10. To the south of the site, beyond the brook, is a recent housing development which was allowed on appeal (51 units) in August 2013¹. The planning history of this site (along with the previous history of the appeal site) is summarised in the Statement of Common Ground². This development is known as Spindle Drive.
- 11. The main built up area of Wingerworth lies to the west of the site, and in this area is typified by predominantly 1960's houses and bungalows. Wingerworth is a very large village (with a population of over 6,000) and is the largest second tier settlement in the District.
- 12. The proposal, as set out in the bullet points at the top of this decision, is in outline along with scale and access. The entrance would be taken from Deerlands Road by way of Spindle Drive and over Redleadmill Brook on a new bridge. The proposal, as judged by the submitted plans and the illustrative material, would include up to 180 homes with 40% affordable units (secured by the Planning Obligation), open space, and on-site storm water attenuation.

Planning policy background and weight

13. The development plan includes the North East Derbyshire Local Plan (LP) (2005) which was intended to operate until 2011. The site is outside the Settlement Development Limit (SDL) of Wingerworth, which is on the opposite

-

¹ APP/RR1038/A/13/2192646

² Section 2

- side of Deerlands Road. For planning purposes the site is therefore agreed to be classified as open countryside.
- 14. Leaving aside the matters which are no longer being pursued by the Council, the remaining policies in the reasons for refusal are:
 - LP policies GS1, GS6 and H3. These deal with SDLs and development in the countryside.
 - LP policies GS1, H12 and T2. These deal with accessibility to local facilities.
- 15. The Wingerworth Neighbourhood Plan (NP) was made in June 2018, and is part of the development plan. This plan does not allocate any housing sites, and I will return to the role of the NP below.
- 16. The draft Local Plan (DLP) has been submitted for examination, and has attracted representations on a wide range of issues, including policies related to housing requirement and supply, settlement development limits and the overall development strategy. The Council did not place any reliance on the DLP at the Inquiry³ and, given the stage which it has reached and the existence of numerous representations, only limited weight could have been placed on it in any event.
- 17. Returning to the development plan, the parties are agreed that the proposal does not conform to the relevant spatial policies of the LP, most particularly in that the appeal site is outside the Wingerworth SDL and is open countryside in policy terms. In the context of the age of the LP, it is unsurprising that the question of whether the LP is out of date was raised in evidence and debated at length at the Inquiry.
- 18. The simple fact that the LP period was until 2011 does not mean that, as it is time expired, it should be disregarded. Nor does the fact that progress on the replacement DLP has been slow, emphasised by the Secretary of State's correspondence with the Council regarding possible local plan intervention⁴, mean that the LP is out of date. The important question is the extent to which the policies in the LP are consistent with the National Planning Policy Framework (the Framework).
- 19. The Wingerworth SDL, as set out in the LP, was stated in the officers' report to be out of date as it did not address the District's housing needs. This is clearly the case, and is unrelated to whether the Council can demonstrate a five year housing land supply a matter to which I return below as what matters in this instance is whether the saved policies still have a function in relation to housing need.
- 20. The SDLs were intended to address development needs up to 2011 and have little to do with the present position. The housing targets set out in the LP are out of date and this was confirmed in the Statement of Common Ground. The SDL and the related policies are inextricably interlinked, in that policies relating to the location of development and the delivery of housing lose much of their meaning if their spatial location is not set out and, conversely, the SDL is meaningless unless there are policies related to it.

³ Other than to note that the SDL for Wingerworth is not proposed to be changed

⁴ CD E38

- 21. In the Council's written evidence it was stated that the LP as a whole was up to date, but this position appeared to change at the Inquiry and it was accepted by the Council's witness that the plan was out of date. The Council's position in the closing submission was that the relevant policies were "mainly consistent" or have "some consistency" with the Framework. This confusing position is not helpful, but I prefer the clear evidence given by the Council's witness.
- 22. In addition, it was accepted by the Council that the authority has allowed developments which are inconsistent with the LP. Furthermore, the approach of my fellow Inspector in the Spindle Drive decision was that policy should be accorded limited weight as it was more restrictive than the (then) Framework. Although this decision was some time ago, nothing in the intervening period suggests that more weight should be given to the same policies.
- 23. In any event, as accepted by the Council at the Inquiry, the wording of LP policy GS1 is incompatible with the Framework as it includes an "overriding exceptional circumstances" test for development in the countryside. This is not, and has never been, part of national policy outside Green Belts or Areas of Outstanding Natural Beauty. Additionally LP policy GS6 gives the countryside a level of blanket protection which is inconsistent with national policy. All these additional matters clearly point to the LP being out of date.
- 24. I appreciate the Council's argument that the DLP does not propose a change to the Wingerworth SDL. However the emerging plan is of limited weight and there are apparently numerous representations to the spatial and housing policies. The emerging position regarding SDLs is therefore of very limited assistance.
- 25. Before concluding on the weight to be accorded to the LP, mention needs to be made of the recently-made NP. This plan makes no allocations and is therefore silent on housing needs. As was explained to me at the Inquiry, the original intention was for the NP to update the existing SDL. But, following discussions with the District Council, it was decided that the SDL should not be revised through the NP and this was left to the DLP. Overall, the NP does not address housing development needs, as this is reserved to the DLP. The Council accepted at the Inquiry that, if the NP were seen to be restrictive in its own right, then the NP itself would be out of date. I do not consider that to be the case and, in view of the perfectly proper relationship between the NP and the LP/DLP, I do not consider the NP to add anything of substance to the relevant policy base.
- 26. Overall the proposal does not conform to the relevant spatial policies of the LP, as the site is outside the SDL and is in the open countryside in policy terms. However, for reasons given above, the LP policies which are most important in determining the appeal are out-of-date. This does not mean that they can be ignored, but they have significantly reduced weight.

The character and appearance of the area

- 27. Part of the Council's composite first reason for refusal alleged negative environmental impacts in relation to visual prominence and the wider landscape/local topography.
- 28. In considering this matter, I am conscious that the Council did not call any landscape or design evidence to defend this aspect of the reason for refusal,

- although it was briefly addressed by the planning witness. This is in contrast to the appellant, who produced a full Landscape and Visual Impact Assessment (LVIA) and who called landscape evidence.
- 29. The site falls within National Character Area 38 the Nottinghamshire, Derbyshire and Yorkshire Coalfield. Regionally it is with the Wooded Slopes and Valleys Landscape Character Type. At the most detailed level it is within the Wooded Farmlands Landscape Character Type, which is typified by scattered ancient woodlands and hedgerow trees, dense tree cover along streams, small to medium irregular fields enclosed by mixed species hedgerows, curving lanes with irregular verges, scattered sandstone farmsteads and occasional hamlets.
- 30. Even allowing for the presence of Wingerworth, the last categorisation is a good description of elements of the appeal site, which is generally well enclosed by hedgerows and trees. There is no reason to doubt the appellant's statement that the majority of these would be retained in the detailed scheme design.
- 31. The Council suggested that the site is prominent, but this was persuasively contradicted by the appellant's detailed landscape evidence and by what I saw from the agreed viewpoints on my site visit. Although the site is visible at close range, when I visited the more distant locations, it was difficult in many cases to pick out the appeal site so any future development thereon would have comparatively little effect. Subject to a height limitation applying to development on the upper part of the site, the proposal would not be unduly prominent or out of place.
- 32. The appellant's LVIA assessed the landscape and visual impact of the proposal and there is no dispute as to the methodology employed. In terms of the effects on landscape character, obviously the proposed replacement of fields by housing would introduce built form onto currently undeveloped land. However so would any built development on a greenfield site, and this would be set in the context of existing development to the south and west and, to a lesser extent, to the north. This limits the sensitivity, remoteness and tranquillity of the site.
- 33. The site is not in a valued landscape in terms of the Framework. The introduction of built form into the countryside beyond the settlement edge would have a minor adverse change to the landscape but this would be appreciated only in localised views. The extent of this change is agreed between the main parties.
- 34. The parties debated the meaning of the appeal decision at Spindle Drive in relation to any consideration of the current appeal site. However this is not a particularly worthwhile exercise as, quite naturally, that Inspector was considering the site before him at that time, and it is not clear what evidence was presented to him in relation to the current appeal site.
- 35. For the above reasons the proposal would cause limited harm to the character and appearance of the area, and would thereby conflict with the relevant development plan policies (to which I attach significantly reduced weight) summarised above.

Relationship with Wingerworth

- 36. Wingerworth is a large village with a number of local amenities, including primary schools, public houses, places of worship, convenience stores and a number of other shops. There are several formal and informal public open spaces. The extent of the facilities is agreed between the main parties⁵.
- 37. Whilst I accept that, due to the proximity of Chesterfield and the good transport links to that town, Wingerworth functions to an extent as a dormitory for Chesterfield and beyond. Nevertheless it has a reasonable range of services and facilities.
- 38. The issue therefore revolves around how the appeal site relates to Wingerworth and the facilities beyond.
- 39. Dealing first with bus transport, there are bus stops around one minute's walk from the entrance to the site. I appreciate that it would take some while to walk from the furthest part of the site to the bus stop, but the distance is not such as would be likely to put many people off using the bus. Once at the stop, there are two services, providing around three services an hour, to Wingerworth, Chesterfield and Clay Cross. Interchange facilities to other destinations and other modes of transport are present especially in Chesterfield.
- 40. Turning to walking and cycling, I note that only three amenities fall within a 1 km walk, but the great majority of the remainder are within 2 kms. I agree with the Council's argument that accessibility must be considered against the situation on the ground, including gradient, as opposed to two dimensional plan form. From what I saw on site some of the routes are sufficiently steep or poorly surfaced as to put some people off walking or cycling. In particular the route north up Hockley Lane is potentially unattractive in inclement weather, or for those with children, or the infirm. However alternative routes exist the shortest of which is only around 150m longer, and offer easier walking or cycling routes.
- 41. In dealing with this issue, I am mindful of the conclusion of my fellow Inspector dealing with the Spindle Road appeal. The access point to that development and the current appeal site are all intents and purposes the same although I accept that the distance across the current appeal site is greater that which he was considering. I have no reason to disagree with his conclusion which was that, having regard to the location of the site and the accessibility to local facilities and services, the development was satisfactorily related to the settlement of Wingerworth. Nothing has been put before me to suggest that matters have significantly changed on the ground since that time.
- 42. Development should be focussed on locations which are sustainable and which offer genuine choices of transport modes. I find that the proposed development would offer a choice of transport modes including walking, cycling and public transport. It would comply with the LP policies summarised above.

Other matters - housing land supply

43. As accepted by the appellant, the presence or absence of a five year housing land supply is not the determinative factor in this appeal. However the

-

⁵ Statement of Common Ground Paragraph 3.6

- absence of such a supply would be an important additional material consideration in favour of the proposal.
- 44. National policy, as set out in the Framework, is that the supply of homes should be significantly boosted and it is important that a sufficient amount and variety of land can come forward where it is needed. To determine the minimum number of homes needed, strategic policies should be informed by a local housing need assessment, conducted using the standard method unless exceptional circumstances justify an alternative approach which also reflects current and future demographic trends and market signals. The use of the standard method is now enshrined in the Framework, and the PPG has been amended to explain its application.
- 45. The most important difference between the parties relates to whether the standard method should be employed. The Council's position is that it can demonstrate a five year supply of housing land, with an OAN based on the standard methodology. The Council is content to rely on 266 dpa, which is the minimum figure derived from the new methodology and the 2014 household projection figures. This approach captures any under-delivery⁶. On the basis of the Standard Method, on any view of the details of the supply and other matters⁷, it is agreed that a five year housing land supply exists.
- 46. However the appellant's approach is that the standard method should not be used. Their requirement position, using the approach which existed before the standard method emerged, leads to a shortfall in housing land supply, as clearly demonstrated in their evidence.
- 47. The parties agreed at the Inquiry that, when the new standard methodology for assessing housing need was introduced, it was for the purpose of simplifying the process and making the it more transparent. A number of matters have been put forward as potential exceptional circumstances which, it is contended, lead to the conclusion that the standard method should not be used in this case.
- 48. The appellant has suggested that the new household projections cast doubt on the standard methodology. It is clear that the recently produced 2016 projections may have a potentially significant effect on the national picture. However for North East Derbyshire the impact appears to be less pronounced. The methodology and the data underpinning it may well be changed, as was flagged up when the Framework and the revised PPG were published and as is illustrated by the recent consultation on draft changes to planning policy and guidance (including the standard method of assessing local housing need). However the fact that the government intends to review the methodology in the light of the 2016 population data is not a good reason for departing from the standard approach at this time. This position was clearly appreciated when the new methodology was introduced. As matters stand the national policy position is clear.
- 49. The transitional provisions in the Framework allow for emerging plans submitted up to January 2019 to be examined in accordance with the approach set out in the former Framework. That is the case in North East Derbyshire, and the Council is relying on a different OAN (330 dpa) at that examination to

-

 $^{^{\}rm 6}$ Based on the new projections the Council states that the figure would be 234 dpa.

⁷ Appellant's supplementary statement Table 3.1

- that which was put forward in relation to this appeal. However the DLP figure using the methodology of the previous Framework is as yet untested.
- 50. The appellant's concern is that this could lead to a perverse position in that this appeal decision and the DLP examination will occur at around the same time, and the results could be founded on different approaches. However the Framework is clear that that the transitional provisions apply to local plan examinations and not to s78 appeals, where the new Framework is immediately applicable. Whilst appreciating the argument, this eventuality will doubtless have been foreseen when the new Framework and revisions to PPG were produced.
- 51. Overall, the standard methodology was introduced to provide clarity and consistency, and with this background circumstances to justify departing from the new methodology would have to be truly exceptional. It is highly unlikely that this is the only instance where the determination of an appeal will occur around the time of a local plan examination, which will be considering the wider picture on a different basis. This does not represent a circumstance so exceptional as to justify a departure from the standard methodology.
- 52. There remain other matters in dispute between the parties, including the use of blended Experian and OBR or solely OBR figures, affordable housing uplift, and details of the supply. However, given my conclusion on the applicability of the standard methodology, it is not necessary to pursue these matters further as it is agreed that a five year housing land supply exists using the standard method approach.
- 53. Therefore the housing land position does not trigger the 'tilted balance' arising from paragraph 11 of the Framework. However it is important to note that the presence of a five year supply of housing land is not a ceiling and the provision of general needs housing is a significant material consideration in light of national policy to significantly boost the supply of homes.
- 54. In addition, the need for affordable housing is agreed by the parties to be acute and significant. The Council criticised some of the details of the appellant's approach towards consideration of affordable housing at the Inquiry, but it is clear that there is a very significant need for affordable housing in the District, and that there is very considerable doubt as to delivery. Even if one accepts the Council's position that there is a pipeline of affordable housing coming forward in Wingerworth which is far from clear the provision of 40% affordable housing in the appeal scheme is a benefit. This is a very significant material consideration weighing in favour of the appeal scheme.

Other matters - traffic, flooding/sewage, ecology, ownership

- 55. Residents are very concerned at the impact of construction traffic on highway safety, based on experiences with the Spindle Road development. I fully understand these concerns but, given the possibility of a condition related to a Construction Method Statement, I am confident that these issues can be significantly ameliorated.
- 56. Residents graphically explained the problems experienced in the area in relation to sewage issues. Whilst I sympathise with the concerns of local people, there is no technical evidence to support their fear that the proposal would worsen the existing position. Surface water would eventually drain to

- the watercourse and only foul water flows would enter the sewer but this would be downstream of the location of the majority of issues reported by residents.
- 57. In terms of ecology, I have nothing which persuades me to depart from the agreement between the main parties that there would be no detrimental impact, and that the proposal could provide a net gain in biodiversity.
- 58. There was a specific concern raised related to the ownership of a dry stone wall to the north of the site. However this is a land ownership issue and is not a matter on which this appeal should turn.
- 59. All these matters and others are agreed between the main parties, as set out in the Statement of Common Ground⁸. I have no substantial evidence to depart from that position.

Conditions and planning obligation

- 60. I have considered the conditions put forward, without prejudice, by the parties in the light of PPG.
- 61. Along with the submission of reserved matters, a number of other details (surface and foul water, levels, planting, play area, climate change, coal mining and biodiversity) need to be submitted prior to the development commencing, to ensure a satisfactory standard of development (1, 2, 12, 20, 21, 22, 23, 24, 25, 32, 33, 35). For the avoidance of doubt, a condition specifying the approved plans is necessary, as is a condition limiting the number of dwellings (3 and 4).
- 62. For heritage reasons, a condition relating to archaeology is necessary (5).
- 63. In the interests of the health of future occupiers, a series of conditions addressing potential contamination is necessary (6 11).
- 64. For ecological reasons, external lighting and the timing of the development needs to be controlled. A Construction Environmental Management Plan and a Landscape and Ecological Mitigation and Management Plan need to be approved and implemented (26, 27, 28, 31).
- 65. To encourage local construction employment, a condition is needed to require a scheme for local recruitment (34).
- 66. Various highway matters need to be approved and implemented in the interests of highway safety (13, 14, 15, 17). For this reason and in relation to the amenity of nearby residents a Construction Method Statement needs to be prepared and implemented and the hours of construction controlled (28, 29, 30).
- 67. In the interests of encouraging sustainable modes of transport a Travel Plan needs to be submitted to and approved by the Council, and subsequently implemented (16).
- 68. As discussed above, a condition is necessary to limit the height of the development in the most prominent part of the site, in the interests of the appearance of the scheme (18).

⁸ Section 8

- 69. A condition was put forward which would require the provision of public art as part of the development (19). Although no specific justification was provided, there is some policy support for this matter and it is agreed that this should be the subject of a condition.
- 70. A suggested condition regarding Biodiversity Metric Calculations is unnecessary as this should form part of the application for approval of details.
- 71. As noted above a Planning Obligation has been submitted. This provides:
 - 40% affordable housing in accordance with LP policy H6 and the guidance in the Affordable Housing SPD.
 - A public art contribution in line with LP policy BE5.
 - Public open space and a Locally Equipped Area of Play (LEAP) in accordance with LP policy R5 and the Council's Recreational and Open Space SPD. The Obligation deals with provision and future maintenance. The proposal includes around 1.76 hectares of public open space, as well as the LEAP.
 - An education contribution. Evidence to justify the contribution has been provided by the County Council, including detailed information on the ability of local schools to accommodate the additional children arising from the development. Confirmation has been given that the number of contributions has not exceeded the CIL Pooling Regulations
 - Highways contributions related to improvements along the A61 corridor.
 Evidence has been submitted regarding the need for the contribution and its relationship with the proposal, along with confirmation that the number of contributions has not exceeded the CIL Pooling Regulations.
 - Healthcare contributions. This would be directed to the Wingerworth Medical Centre, and evidence has been provided to explain the amount of the contribution.
 - Travel Plan. A monitored Travel Plan is required in relation to LP policy T4.
- 72. The CIL Compliance Statement and other evidence demonstrate that the provisions of the Obligation are directly related to the proposed development and are necessary to make the scheme acceptable in planning terms. Therefore the Obligation meets the policy in paragraph 56 of the Framework and the tests in Regulation 122 of the Community Infrastructure Levy Regulations 2010. Some of the provisions are designed to mitigate the impact of the proposal and these elements therefore do not provide benefits in favour of the appeal. However other matters, most notably the provision of affordable housing, weigh in favour of the appeal.

Planning balance and conclusion

73. In conclusion the proposal does not conform to the relevant spatial policies of the LP, as the site is outside the SDL and is in the open countryside in policy terms. It would cause limited harm to the character and appearance of the area, as would any built development on a greenfield site. However the LP policies which are most important in determining the appeal are out-of-date and are afforded significantly reduced weight.

- 74. The location is sustainable and the proposal offers genuine choices of transport modes and complies with the relevant policies.
- 75. Although I have concluded that there is a five year housing land supply in the District, based on the standard methodology, this is not a ceiling and the provision of general needs housing is a significant material consideration in the light of national policy. In addition the provision of 40% affordable housing is a very significant material consideration weighing in favour of the appeal scheme.
- 76. There would also be some limited benefits arising from construction employment, indirect economic benefits, and increased local spend.
- 77. As explained above, the housing land supply position does not trigger the so called 'tilted balance' in paragraph 11 of the Framework. However, as accepted by the Council, this is triggered by the fact that the spatial strategy and settlement boundaries are out of date. Permission should therefore be granted unless the adverse impacts would significantly and demonstrably outweigh the benefits. In this case the adverse impacts do not come close to outweighing the benefits.
- 78. For the reasons given above I conclude that the appeal should be allowed.

P. J. G. Ware Inspector

CONDITIONS

- 1) Applications for approval of reserved matters are required before development can start and shall be made to the local planning authority before the expiration of three years from the date of this permission. The development hereby permitted shall be started within two years from the date of the approval of the last of the reserved matters to be approved.
- 2) Approval of the details of the layout, appearance of the buildings and landscaping of the site (called "the reserved matters") shall be obtained from the local planning authority in writing before any development is started.
- 3) The development hereby approved shall be carried out in accordance with the following plans: Location plan 2A; Draft general arrangement 02072-03F; Revised illustrative layout Rev B; Drawing 17.
- 4) The development hereby approved shall not exceed 180 dwellings.
- 5) No development shall take place until a Written Scheme of Investigation of archaeological work has been submitted to and approved by the local planning authority in writing. The scheme shall include an assessment of the significance of the site, research questions and:
 - The programme and methodology of site investigation and recording
 - The programme for post investigation assessment
 - Provision for analysis of the site investigation and recording
 - Provision for publication and dissemination of the analysis and records of the site investigation
 - Provision for archive deposition of the analysis and records of the site investigation
 - Nomination of a competent person or persons/organization to undertake the works set out within the Written Scheme of Investigation

No development shall take place other than in accordance with the archaeological Written Scheme of Investigation.

The development shall not be occupied until the site investigation and post investigation assessment has been completed in accordance with the programme set out in the archaeological Written Scheme of Investigation and the provision to be made for analysis, publication and dissemination of results and archive deposition has been secured.

- 6) Before the commencement of the development hereby approved a Phase I contaminated land assessment shall be undertaken and approved in writing by the local planning authority. The contaminated land assessment shall include a desk-study with details of the history of the site's use including:
 - the likely presence of potentially hazardous materials and substances
 - their likely nature, extent and scale
 - whether or not they originated from the site

- a conceptual model of pollutant-receptor linkages
- an assessment of the potential risks to human health, property (existing or proposed) including buildings, crops, livestock, pets, woodland and service lines and pipes, adjoining land, ground waters and surface waters, ecological systems, archaeological sites and ancient monuments
- details of a site investigation strategy (if potential contamination is identified) to effectively characterise the site based on the relevant information discovered by the desk study and justification for the use or not of appropriate guidance. The site investigation strategy shall, where necessary, include relevant soil, ground gas, surface and groundwater sampling/monitoring as identified by the deskstudy strategy
- 7) The site investigation shall be carried out by a competent person in accordance with the current U.K. requirements for sampling and analysis. A report of the site investigation shall be submitted to the local planning authority for approval.
- 8) Before commencement of the development hereby approved, where the site investigation identifies unacceptable levels of contamination, a detailed remediation scheme to bring the site to a condition suitable for the intended use by removing unacceptable risks to human health, buildings and other property and the natural and historical environment shall be submitted to and approved in writing by the local planning authority. The submitted scheme shall have regard to CLR 11 and other relevant current guidance. The approved scheme shall include all works to be undertaken, proposed remediation objectives and remediation criteria and site management procedures. The scheme shall ensure that the site will not qualify as contaminated land under Part 2A of the Environmental Protection Act 1990 in relation to the intended use of the land after remediation.
- 9) None of the dwellings hereby approved shall be occupied until the approved remediation works have been carried out in full in compliance with the approved methodology and best practice.
- 10) If during the construction of the development hereby approved any suspected areas of contamination are discovered, which have not previously been identified, then all works shall be suspended until the nature and extent of the contamination is assessed and a report submitted and approved in writing by the local planning authority and the local planning authority shall be notified as soon as is reasonably practicable of the discovery of any suspected areas of contamination. The suspect material shall be re-evaluated through the process described above.
- 11) Upon completion of the remediation works required by conditions above a validation report prepared by a competent person shall be submitted to and approved in writing by the local planning authority. The validation report shall include details of the remediation works and Quality Assurance/Quality Control results to show that the works have been carried out in full and in accordance with the approved methodology. Details of any validation sampling and analysis to show the site has achieved the approved

- remediation standard, together with the necessary waste management documentation shall be included.
- 12) Before the commencement of any operations on site, a scheme for the disposal of highway surface water via a positive gravity-fed system, discharging to an outfall or public sewer, highway drain or watercourse, shall be submitted to and approved by the local planning authority. The development shall be implemented in accordance with these details.
- 13) Before the commencement of any operations on site, detailed designs shall be submitted to the local planning authority for written approval indicating the design and construction of the proposed access road bridge structure, the proposed works being completed in accordance with the approved scheme prior to the occupation of any dwelling hereby approved and maintained throughout the life of the development free from any impediment.
- 14) Before any other operations are commenced (excluding site clearance and the erection of the bridge to allow access), space shall be provided within the site curtilage for storage of plant and materials/site accommodation/loading and unloading of goods vehicles/parking and manoeuvring of site operatives and visitors vehicles, laid out and constructed in accordance with detailed designs to be submitted in advance to the local planning authority for written approval and retained throughout the contract period in accordance with the approved designs free from any impediment.
- 15) Before any other operations are commenced, (excluding condition numbers 11 13 above) a new estate street junction shall be formed to Spindle Drive located, designed, laid out, constructed and provided with 2.4m x 25m visibility splays in either direction, all as agreed in writing with the local planning authority, the area in advance of the sightlines being levelled, forming part of the new street constructed as footway and not forming part of any plot or other sub-division of the site.
- 16) No dwelling shall be occupied until a Travel Plan has been submitted to and approved by the local planning authority. The Travel Plan shall set out proposals (including a timetable), to promote travel by sustainable modes which are acceptable to the local planning authority, and shall be implemented in accordance with the timetable set out therein. Reports demonstrating progress in promoting sustainable transport measures shall be submitted annually, on each anniversary of the date of the planning permission, to the local planning authority for approval for a period of five years from first occupation of the development.
- 17) Throughout the entire period of construction, wheel washing facilities shall be provided within the site in a location and of a form that shall be submitted to and be approved in writing by the local planning authority before development commences.
- 18) The dwellings built within the area identified in purple on Drawing 17 shall be no taller than 1 and a half storeys in height.

- 19) Before the development hereby approved starts, a scheme for the provision of public art on the site, including a timetable for implementation of the scheme, shall be submitted to and approved in writing by the local planning authority. The public art shall thereafter be completed in full in accordance with the approved scheme and timetable and shall be retained as such thereafter.
- 20) Details of the existing ground levels, proposed finished floor levels of the dwellings and the proposed finished ground levels of the site, relative to a datum point which is to remain undisturbed during the development, shall be submitted to and approved in writing as part of the reserved matters approval. The development shall then be carried out in accordance with the approved details and the levels shall be retained as such thereafter.
- 21) All planting, seeding or turfing in the approved scheme of landscaping shall be carried out in the first planting and seeding season following the occupation of the buildings or the completion of the development, whichever is the sooner. Any trees or plants which within a period of 5 years from the completion of the development die, are removed or become seriously damaged or diseased shall be replaced in the next planting season with others of similar size and species.
- 22) Before development starts, and as identified on the submitted indicative masterplan, a plan identifying a locally equipped area of play shall be submitted to and approved in writing by the local planning authority. As a minimum it shall include details of equipment to be erected, material used, including flooring and boundary treatments. The details as approved shall be built before more than half of the dwellings on site are occupied.
- 23) Before development starts a scheme for the provision of surface water drainage works, including details of any balancing and off-site works, shall be submitted to and approved in writing by the local planning authority. The approved scheme shall be implemented in full before the occupation of the first dwelling and shall be retained as such thereafter.
- 24) Before development starts, a scheme for the provision of foul drainage works shall be submitted to and approved in writing by the local planning authority. The approved scheme shall be implemented in full before the occupation of the first dwelling and shall be maintained as such thereafter.
- 25) The site shall be developed with separate systems of drainage for foul and surface water on and off site.
- 26) No development shall commence until a detailed external lighting strategy has been submitted to and approved in writing by the local planning authority. Such approved measures shall be implemented in full and retained as such thereafter. No other lighting shall be constructed or implemented on the site.
- 27) No site clearance shall take place between 1st March and 31st August inclusive, unless a qualified ecologist has undertaken a detailed check of the site for active birds' nests immediately before work is commenced and provided written confirmation that no birds will be harmed and/or that there

are appropriate measures in place to protect nesting birds. Any such written confirmation should be submitted and approved by the local planning authority.

- 28) No development shall take place (including ground works, vegetation clearance) until a Construction Environmental Management Plan (CEMP: Biodiversity) has been submitted to and approved in writing by the local planning authority. The CEMP (Biodiversity) shall include the following incorporating the measures outlined within Section 4 of the ecological report:
 - Risk assessment of potentially damaging construction activities
 - Identification of biodiversity protection/buffer zones to include the Brook, hedgerows, woodland, trees other habitat as required
 - Practical measures (both physical measures and sensitive working practices) to avoid or reduce impacts on habitats and species during construction
 - The location and timing of sensitive works to avoid harm to habitats and species
 - The times during construction when specialist ecologists need to be present on site to oversee works
 - Responsible persons and lines of communication
 - The role and responsibilities on site of an ecological clerk of works or similarly competent person
 - Use of protective fences, exclusion barriers and warning signs

The approved CEMP shall be adhered to and implemented throughout the construction period in accordance with the approved details.

- 29) No development shall take place until a Construction Method Statement (CMS) has been submitted to and approved by the local planning authority. The Statement shall provide for:
 - Details of construction workers' accommodation
 - The storage of plant and materials
 - Parking and manoeuvring areas for vehicles
 - Loading and unloading areas

The approved CMS shall be adhered to and implemented throughout the construction period in accordance with the approved details.

- 30) No construction work shall be carried out or deliveries made to the site outside of the hours of 0730 to 1800 hours Monday to Friday and 0730 to 1200 on Saturday. No construction work or deliveries shall be carried out/made at any time on Sundays or Public Holidays.
- 31) A Landscape and Ecological Mitigation and Management Plan (LEMMP) for all retained habitats within the development site shall be submitted to and be approved in writing by the local planning authority as part of any reserved matters application. The plan should incorporate the details provided in the ecological appraisals and the content of the plan should include the following:

- Description and evaluation of features to be managed/enhanced or created
- Ecological trends and constraints on site that might influence management
- Aims and objectives of management
- Appropriate management options and methods for achieving aims and objectives
- Timescales
- Prescriptions for management actions
- Preparation of a work schedule (including an annual work plan capable of being rolled forward over a five-year period)
- Details of the body or organization responsible for implementation of the plan
- Ongoing monitoring and remedial measures

The LEMMP shall be implemented in accordance with the approved details.

- 32) The details to be submitted to and approved in writing by the local planning authority as part of the reserved matters shall include a scheme for mitigating climate change through the sustainable design and construction of the dwellings including the provision of sources of renewable energy. Thereafter the approved climate change scheme shall be implemented in full and retained as such thereafter.
- 33) Prior to the commencement of development further investigation works with regard to the coal mining legacy shall be submitted to and approved in writing by the local planning authority. The works shall include the submission of a scheme of intrusive site investigation works. The works as approved shall be completed and a report of the findings submitted to the local planning authority for written approval. Any remedial works as agreed shall be implemented in full.
- 34) Before the development hereby approved starts a scheme for the recruitment of employees for the construction period of the development hereby approved shall be submitted to and approved in writing by the local planning authority. Thereafter the scheme shall be operated in accordance with the approved details.

APPEARANCES

FOR THE LOCAL PLANNING AUTHORITY:		
MrJM	itchell of Counsel	Instructed by the Council's Planning Manager
	He called	
	Ms L Chapman	Principal Planning Officer, Policy
	MSP Cert PLAP	
	Mr N Ireland	Director, Iceni Projects
_	BA(Hons) MTP MRTPI	
	Mr G Bradford	Director, Planning and Environment Studio
	BSc(Hons) MRTPI	
	PGDipURP MA	

FOR THE APPELLANT:		
Mr C Young QC	Instructed by Mr P Hill	
He called		
Mr R McWilliam	Director of Landscape, Barton Willmore	
DipLA CMLI		
Mr A Moger	Tetlow King Planning	
BA(Hons) MA MRTPI		
Mr M Nettleton	Joint Managing Director, Phil Jones Associates	
BSc MCIHT		
Mr C Austin-Fell	Associate RPS Planning and Development	
BA(Hons) MRTPI MTP		
Mr D Owen	EFM	
BA(Hons) MTPL MRTPI		
Mr R Chalmers	Director of Engineering, RPS Group	
BSc ME MICE		
Mr S Clyne	EFM	
LCP Dip SMS Cert Ed MAE		
Mr P Hill	Director, RPS Planning and Development	
BA(Hons) MA MRTPI		

INTERESTED PERSONS:	
Mrs L Carter	Local resident
Mrs Y Piggott	Local resident
Cllr D Ruff	Chair, Wingerworth Parish Council
Mr K Boulden	Local Resident
Mrs D Nash	Local resident
